

## TEX OIL REMOVER SPRAY

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product identifier

Trade Name : Tex Oil Remover Spray

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Oil Remover

#### 1.3. Details of the supplier of the safety data sheet

Company : Aykim Temizlik Maddeleri San. ve Tic. A.Ş.  
Address : Cumhuriyet Mahallesi Lütü Aykaç Bulvarı No:7  
Sultangazi/İstanbul/Turkey  
Phone : +90 (212) 475 08 34  
Fax : +90 (212) 475 08 35

#### 1.4. Emergency telephone number: +90 (212) 475 08 34

### 2. HAZARDS IDENTIFICATION

#### 2.1. Classification of the substance or mixture

Skin irritation 1B; H314

#### 2.2. Label elements

H314: Causes severe skin burns and eye damage

EUH031: Contact with acids liberates toxic gas

P260: Do not breathe dust/fume/gas/mist/vapours/spray.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P301 + P330 + P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P303 + P361 + P353: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.  
Rinse skin with water/shower.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact  
lenses, if present and easy to do. Continue rinsing.

## TEX OIL REMOVER SPRAY

### WARNING

#### 2.3. Other hazards

None

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1. Substance

Non-applicable

#### 3.2. Mixture

Substance	Cas No	Classification	Concentration
Nonionic surfactant	85408-49-7	Skin Irr. 2; H315 Eye Dam. 1; H318 Aquatic Chron. 1; H410 Acute Tox.4; H302	<%5,0
Sodium Hydroxide	1310-73-2	Eye Irr.2; H319: 0,5 % ≤ C < 2 % Skin Corr. 1A; H314: C ≥ 5 % Skin Corr. 1B; H314: 2 % ≤ C < 5 % Skin Irr.2; H315: 0,5 % ≤ C < 2 %	<%5,0
Perfume	-	-	<%0,05
Deionised water	7732-18-5	-	To 100

## TEX OIL REMOVER SPRAY

### 4. FIRST AID MEASURES

#### 4.1. Description of first aid measures

By eye contact : Wash the exposed eye under running water with the eyelids open. Remove contact lenses, if present and easily removable, and continue washing. If irritation persists, seek medical attention.

By skin contact : In case of prolonged contact, rinse with plenty of water. If irritation persists, seek medical attention.

By ingestion : Rinse out the mouth and throat, as they may have been affected during ingestion. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS of the product.

By inhalation : First aid is usually not necessary.

#### 4.2. Most important symptoms and effects, both acute and delayed

By eye contact : It causes redness, pain and burning sensation.

By skin contact : May cause irritation. Open wounds, acne, irritated skin should not be exposed to the product.

By ingestion : May cause gastrointestinal tract irritation.

By inhalation : No further important information is available.

#### 4.3. Indication of any immediate medical attention and special treatment needed

If swallowed, gastric lavage may be necessary.

Rinse eyes with saline.

### 5. FIREFIGHTING MEASURES

#### 5.1. Extinguishing media:

## TEX OIL REMOVER SPRAY

Use dry chemical powder extinguishers, carbon dioxide, water spray. For large fires, use water spray or alcohol-resistant foam.

### 5.2. Special hazards arising from the substance or mixture

Non-applicable

### 5.3. Advice for firefighters

#### Fire fighting methods

Remove workers to a safe area. Do not breathe gases/smoke from combustion. If safe to do so, remove unburnt packaging from the fire area. Do not approach suspected hot containers, cool closed packages by spraying water. Avoid contaminating the environment by using more fire extinguisher than necessary. Fire-fighting residues should not be allowed to reach drains and groundwater.

#### Specialized equipment to be used in fire fighting

Staff on duty during fire-fighting should wear a scuba respirator and chemical protective clothing.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedures

Ensure good ventilation, avoid inhalation of vapors/smoke/aerosols/powders, avoid contact with eyes. If there is no safety hazard, prevent further leakage and spillage. Use necessary personal protective equipment.

### 6.2. Environmental precautions

Release into the environment may cause soil and water contamination. Prevent it from entering sewage, surface and ground water. In case of mixing with water or sewage, notify the competent authorities, inform the authorities and apply the relevant regulations.

### 6.3. Methods and material for containment and cleaning up

Collect spillage by soaking in a non-flammable, inert absorbent and transfer to drums with suitable lids, rinse off the remainder with water. Dispose of in accordance with relevant regulations.

### 6.4. Reference to other sections

## TEX OIL REMOVER SPRAY

None

### 7. HANDLING AND STORAGE

#### 7.1. Precautions for safe handling

Work in accordance with the provisions of the "Regulation on Health and Safety Measures at Work with Chemical Substances". Do not take the product by mouth, wash hands with soap and water after work to avoid accidental ingestion. Make sure there is good ventilation in the environment, do not inhale vapors, avoid swallowing and eye contact. Eating, drinking and smoking should be prohibited in the work area. Use the product as directed in the instructions for use, avoid contact with wounds and cracks on the skin, around the eyes and lips. Keep the labels on the packaging and follow the warnings on the label.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store the substance in its original packaging, tightly closed, in a dry, cool and well-ventilated place. Smoking, eating and drinking should be prohibited in warehouses and the manufacturer's storage and handling recommendations should be observed. Protect from food, drink and animal feeding areas, open flame sources, sparks, direct sunlight, extreme heat and frost. Avoid storage with strong oxidizing agents. All substances should be kept closed in their original packaging when not in use, and necessary precautions should be taken to prevent damage to the original packaging.

The warehouse should be cleaned regularly, ventilation, temperature and humidity controls should be carried out regularly.

#### 7.3. Specific end use(s)

No further important information is available.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1. Control parameters

No information available.

#### 8.2. Exposure controls

##### 8.2.1. Appropriate engineering controls

The use of personal protective equipment and the application of industrial hygiene rules during handling and application are mandatory. Design the area of use in such a way as to prevent the

## TEX OIL REMOVER SPRAY

product from contaminating the environment. Remove contaminated clothing immediately. Wash hands at the end of work and during breaks in work, avoid direct contact with eyes. Do not eat, drink or smoke while using this material. There should be eyewash stations and emergency showers close to the work area. The working environment should be regularly inspected by authorized personnel such as an occupational safety specialist.

### 8.2.2. Personal protection

Eye/face protection: No protective equipment required under normal conditions of use. Wear protective goggles with suitable side shields to protect against splashes during production, emergencies and overexposure. Avoid contact with eyes.

Skin Protection: No protective equipment required under normal conditions of use. Wear nitrile rubber gloves to avoid overexposure during production. Check that protective gloves are intact and suitable for use before each use. After using gloves, clean and care your hands with skin cleansing agents and skin care creams. Do not wear protective gloves for longer than necessary.

Respiratory protection: Respiratory protection is not required under normal conditions of use.

### 8.2.3. Environmental exposure controls

Do not allow to be released into the environment, prevent it from entering sewage, surface and groundwater. In case of mixing with water or sewage, notify the competent authorities, inform the authorities and apply the relevant regulations.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

View	: Transparent, liquid
Odor	: Unique
Odor threshold	: Not specified
pH	: 11,0 – 13,0
Melting point/freezing point	: Not specified
Initial boiling point and boiling range	: Not determined.
Flash point	: Undetermined.
Evaporation rate	: Undetermined.
Flammability (solid, gas)	: Undetermined.
Upper/lower flammability or explosive limits	: Undetermined.
Vapor pressure	: Undetermined.

## TEX OIL REMOVER SPRAY

Vapor density	: Undetermined.
Relative density (20°C)	: Undetermined.
Resolution	: Soluble in water.
Partition coefficient: n-octanol/water	: Not determined.
Flammability temperature	: Not determined.
Decomposition temperature	: Not determined.
Fluidity	: Belirlenmemiştir.
Explosive properties	: Belirlenmemiştir.
Oxidizing properties	: Belirlenmemiştir.

### 9.2. Other information

No further important information is available.

## 10. STABILITY AND REACTIVITY

### 10.1. Reaction

The product does not react dangerously when used for its intended purpose.

### 10.2. Chemical Stability

Stable at temperature and pressure under normal ambient conditions and under prescribed storage and handling conditions.

### 10.3. Possibility of Harmful Reaction

None when used for its intended purpose.

### 10.4. Conditions to avoid

Protect from direct sunlight, extreme heat and frost.

### 10.5. Substances to be avoided

Strong oxidizing agents

### 10.6. Harmful Decomposition Products

Not when used for its intended purpose.

## 11. TOXICOLOGICAL INFORMATION

## TEX OIL REMOVER SPRAY

### 11.1. Information on toxicological effects

This product has not been toxicologically tested.

### 12. ECOLOGICAL INFORMATION

Data on ecotoxicity have not been specifically determined for the assessment of the environmental hazard of this product.

### 13. DISPOSAL CONSIDERATIONS

#### 13.1. Waste treatment methods

The product and its wastes should not be mixed with sewage, surface, underground and drinking water and should be disposed of in accordance with official regulations.

### 14. TRANSPORT INFORMATION

Land Transport ADR/RID: Not classified as a dangerous good under transport regulations

Sea Transport (IMDG): Not classified as a dangerous good under transport regulations

Air Transport ICAO-TI ve IATA-DGR): Not classified as a dangerous good under transport regulations

### 15. REGULATORY INFORMATION

See Section 2 for classification and labeling information.

Regulation on Classification, Labeling and Packaging of Substances and Mixtures

Regulation on Safety Data Sheets for Hazardous Substances and Mixtures

Occupational Health and Safety Regulation Regulation on Health and Safety Measures at Work with Chemical Substances

Regulation on the Use of Personal Protective Equipment at Workplaces

Regulation on Control of Hazardous Wastes

Regulation on Detergents

### 16. OTHER INFORMATION

***Additional information***

## TEX OIL REMOVER SPRAY

The information on the product in this Safety Data Sheet has been compiled from what is known about the individual components. The data herein are based on current knowledge and experience. This information is based on the condition of the product at the time of shipment and does not guarantee any unusual properties. It is intended only to describe information relevant to the health, safety and environmental requirements of the product.

The data herein is valid only when the product is used for the appropriate application(s). The product is not sold for other applications. In such a case, its use may lead to risks not mentioned in this list.

The information given in this document does not constitute a warranty/guarantee for the characteristics of the product and does not constitute a legally binding agreement/contractual legal relationship. This document supplements, but does not replace, the technical documentation.
