## 8.12 Exporting Images

- Use this function to export study items selected from the study list to local or to the external storage medium.
- It supports various storage medium like HDD, USB, CD, DVD, etc.
- It also supports various image format conversions.
- You can execute other actions while importing images. (e.g. shooting or sending images)

**How to use**

1 Select studies to be exported from the study list.
  - You can choose serveral studies by using **Ctrl** or **Shift** key.
2 Click on the **Export** button.
  - The **Export Manager** window displays.
3 Set various options such as image format, storage path, etc.
  - Click on the **Options** button to set additional options.
  - Click on the **StudyList** button to check the list of studies to be exported.
4 Click on the **Start** button to export images.
  - You can suspend exporting images while converting the files.
5 You cannot change the configured options if the exporting is stopped or failed.

**Close**

1 Click on the **Close** button or [x] to finish exporting the image.
  - If you click [x] while exporting images, the progress window is hidden but the images continue to be exported.
2 The **Export Manager** window is closed after exporting images successfully. Check the exported files from the storage media.

⚠
- While the images are being exported, the **Export Manager** is not closed even you close **VXvue**.
- A pop-up window will appear to ask if you continue to export reject / preview / FTM images if they are included in the study list to be exported.
  - It is not available to export the reject / preview / FTM images.
