Product Details

Powder Coated Steel Commode Chair With Plastic Armrests

Description

#JL810 is a steel commode chair that can be easily and comfortably used for personal hygiene care. The chair comes with durable steel frame with powder coated finish. The plastic commode pail with lid is easily removable. The plastic armrests offer a comfortable place to rest on when sitting and offer a safe grab when making sitting or standing. The bottom tips are made of anti-slip rubber to reduce the accident of slipping. Each leg has a spring lock pin for adjusting seat height to fit different users.
