

GT630-200

## GT630-200 Oxygen Bag

### Major specifications: 30L/42L/50L

It is made of non-poisonous nylon with rubber materials applied on single face which has no adverse chemical effects. It is mainly used for emergency use in hospital and as health care product at home. It characterized with easy to clean, safety, durable and easy to carry.

## GT630-300 Oxygen cylinder (steel)

### (major specifications: 2L, 3.2L, 4L)

Adopting unique design of combination of pressure-reducing valve and safety valve. Compact in structure, fancy and safe, equipped with flow regulator, stable output pressure.

Adopting empty-inside packing (we have acquired the patent for this packing) unique double-way design (needn't open the lower valve when breathing oxygen, relieves user's fear for the pressure containers).

Strong, tough, collision protection. It is easy to carry and move for its mini-size and lightweight.
