Silver inhibits growth and, as a result, kills bacteria on the surface of the device. After two hours, the reduction of microbes is as high as 60%. After 24 hours, the Biomaster technology eliminates up to 99% of harmful bacteria. It is the right product for users who value safety and hygiene, and who want to minimize the risk of bacteria spreading. The plug with a convex anti-slip design makes it easy to open the USB in any situation. After removing the plug, you can put it on the other end of the cover this ensures that you will not get it lost.
