Sanayi ve Ticaret A.Ş. and
Its Subsidiary**

**Consolidated Financial Statements
for the Period 1 January-31 December 2019
and Independent Auditor's Report**

**(CONVENIENCE TRANSLATION OF
CONSOLIDATED FINANCIAL STATEMENTS
ORIGINALLY ISSUED IN TURKISH)**

(CONVENIENCE TRANSLATION OF INDEPENDENT AUDITOR'S REPORT ORIGINALLY ISSUED IN TURKISH)

INDEPENDENT AUDITOR'S REPORT

To the General Assembly of Anadolu Isuzu Otomotiv ve Ticaret A.Ş.

A) Report on the Audit of the Consolidated Financial Statements

1) Opinion

We have audited the consolidated financial statements of Anadolu Isuzu Otomotiv ve Ticaret A.Ş. ("the Company") and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2019, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Turkish Financial Reporting Standards (TFRS).

2) Basis for Opinion

We conducted our audit in accordance with the standards on auditing issued by Capital Markets Board and the Standards on Independent Auditing ("SIA") which is a part of Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the *Code of Ethics for Independent Auditors* ("Code of Ethics") published by the POA, together with the ethical requirements that are relevant to our audit of the consolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3) Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

3) Key Audit Matters (cont'd)

Key Audit Matter	How the matter was addressed in the audit
<p><i>Deferred Tax Assets Calculated over Previous Years' Tax Losses</i></p> <p>According to the Turkish Tax Legislation, financial losses stated in the declaration can be deducted from the profit of the company for the period providing not exceeding 5 years. Total financial losses of the Group transferring as of 31 December 2019 is 151.701 thousand TL, and 25.619 thousand TL of this amount is 2016 financial loss, 30.492 thousand TL of this amount is 2017, 73.375 thousand TL of this amount is 2018 and the remaining 29.215 TL is 2019 financial loss.</p> <p>As stated in Note 25 related to consolidated financial statements, The Group recognised 32,253 thousand TL of deferred tax asset calculated on previous years' tax losses as of 31 December 2019.</p> <p>Partially or wholly recoverable amount of calculated deferred tax assets is estimated by the Group Management according to assumptions under current circumstances. During the estimation, future business plans, losses in the last 5 years and due dates of unused losses are considered. To what extent the assets in question can be recognized depends on the estimations of the Group Management, therefore these assets are evaluated as a key audit matter.</p>	<p>Our audit procedures applied in this field include the issues below:</p> <ul style="list-style-type: none"> • To identify controls relevant to process of implication of assumptions made by the management, • To design and apply tests to obtain sufficient and appropriate audit evidence with regards to evaluation of design and determination of implementation of the controls. • To evaluate and investigate the assumptions and judgements used in determination of future taxable earning estimations together with sensitivity analyses by analysing assumptions made by the Group Management; • To evaluate validity and acceptability of assumptions made by the Group Management; • To consider the effect of adjustments in the legislation if required; and • To reconcile amounts and expiry dates of utilisable previous years' tax losses with tax declarations; • To evaluate whether the disclosures in consolidated financial statements for applications of judgements used in the estimations of deferred tax assets stated or not stated in the consolidated financial statements include the deferred tax position according to TAS provisions.

4) Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with TFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

5) Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Responsibilities of independent auditors in an independent audit are as follows:

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the standards on auditing issued by Capital Markets Board and SIA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the standards on auditing issued by Capital Markets Board and SIA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion (The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control)
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Report on Other Legal and Regulatory Requirements

In accordance with paragraph four of the Article 398 of the Turkish Commercial Code No. 6102 (“TCC”), the auditor’s report on the system and the committee of early detection of risk has been submitted to the Board of Directors of the Company on 28 February 2020.

In accordance with paragraph four of the Article 402 of TCC, nothing has come to our attention that may cause us to believe that the Group’s set of accounts and financial statements prepared for the period 1 January-31 December 2019 does not comply with TCC and the provisions of the Company’s articles of association in relation to financial reporting.

In accordance with paragraph four of the Article 402 of TCC, the Board of Directors provided us all the required information and documentation with respect to our audit.

The engagement partner on the audit resulting in this independent auditor’s report is Koray Öztürk.

NOTE 1 - ORGANIZATION AND OPERATIONS OF THE GROUP

Anadolu Isuzu Otomotiv Sanayi ve Ticaret Anonim Şirketi (the “Company”) was established in 1980. Principal activities of the Company are comprised mainly of manufacturing, assembling, import and sales of commercial vehicles and also procure and sales of related spare parts regarding to after sales service. The Company is registered to Capital Markets Board of Turkey and the percentage of 15 of the Company’s shares have been traded on Borsa İstanbul A.Ş. since 1997.

The Company carries out its operations as a partnership formed by Isuzu Motors Ltd. Itochu Corporation and Anadolu Group Companies. The Company runs its manufacturing operations in a factory which is established in Çayirova/Kocaeli. The average number of employees as of 31 December 2019 is 817 (31 December 2018: 802).

The Company has been registered in Turkey, and the address of the Company is Fatih Sultan Mehmet Mahallesi Balkan Caddesi No: 58 Buyaka E Blok Tepeüstü Ümraniye, İstanbul.

The main shareholder and the controlling party of the Company is Anadolu Group Holding Anonim Şirketi.

As of 31 December 2019 and 31 December 2018, details about the company’s subsidiary, which is subject to consolidation, is below:

Company Name	Principal Activity	Capital	31 December 2019 Participation Rate (%)	31 December 2018 Participation Rate (%)
Ant Sınai ve Ticari Ürünleri Pazarlama A.Ş.	Trade of spare parts	716.000	100	100

Approval of Financial Statements

Consolidated financial statements for the period 1 January – 31 December 2019 approved by the Board of Directors on 28 February 2020 and signed by Independent Member of the Board of Director Orhan ÖZER (Audit Committee Chairman) and Ahmet Murat SELEK (Audit Committee Member), General Manager Yusuf Tuğrul ARIKAN and Finance Director Fatma AKSOY ÖZEK.

The Company and its subsidiary will be referred as (the “Group”) in the consolidated financial statements and notes to the consolidated financial statements.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of Presentation

2.1.1 Statement of Compliance TAS

The enclosed consolidated financial statements have been prepared in line with Capital Markets Board (“CMB”), Communiqué Serial: II, No. 14.1 on “Principles on Financial Reporting in Capital Market”, promulgated in Official Gazette No. 28676 dated 13 June 2013. Pursuant to Article 5 of the Communiqué, Turkish Accounting Standards / Turkish Financial Reporting Standards (“TAS/IFRS”) enforced by Public Oversight Accounting and Auditing Standards Authority (“POA”), and their relevant appendices and interpretations (“TAS/IFRS”) have been taken as basic.

In addition, the financial statements and disclosures are presented in accordance with the publication by CMB dated 7 June 2013.

The Company (and its Subsidiary registered in Turkey) takes the Turkish Commercial Code (“TCC”), tax legislation and Uniform Chart of Accounts introduced by Turkish Ministry of Finance as basic for book keeping and preparation of the statutory financial statements. Consolidated financial statements have been prepared in Turkish Lira based on the historical costs, as well as the financial assets and liabilities presented in their fair values. Historical costs are generally based on the fair value of the amount paid for the assets. Consolidated financial statements have been arranged by applying the required adjustments and classifications to the statutory records prepared on historical cost basis in order to provide accurate presentation in line with TAS/IFRS. The most important adjustment records are the application of consolidation accounting, deferred tax calculation, calculation of employee termination benefit and other provisions.

Currency Used

The financial statements of the Group’s each entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). The results and financial position of the each entity are expressed in TL, which is the functional currency of the Company and the currency used for presenting consolidated financial statements.

NOTE 2 -BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

2.1.2 Consolidation principles

Subsidiaries

Subsidiaries, including structured entities, are companies in the Group's control. The Group's control is provides for exposure to variable returns from these companies, being eligible for these benefits, and the power to direct them. Subsidiaries are consolidated using the full consolidation method starting from the date when the control is transferred to the Group. They are excluded from the scope of consolidation as of the date when the control is lost.

The purchasing method is used in accounting for group business combinations. The cost of acquisition includes the fair value of the assets transferred at the acquisition date, the liabilities incurred by the former owner of the company, and costs, consisting of equity instruments issued by the Group. The acquisition cost includes the fair value of the assets and liabilities transferred as a result of the contingent acquisition agreement.

The identifiable assets, liabilities, and contingent liabilities taken over during a business combination are measured at their fair value on the acquisition date. For each purchase, non-controlling shares of the acquired company are recognised either at their fair value or according to their proportional share in the net assets of the acquired company.

The table below sets out the subsidiaries and their ownership interests as of 31 December 2019 and 31 December 2018.

Subsidiary	Voting power held by the Group (%)		Proportion of ownership interest (%)	
	31 December 2019	31 December 2018	31 December 2019	31 December 2018
Ant Sınai ve Ticari Ürünleri Pazarlama A.Ş.	100	100	100	100

2.1.3 Adjustment of Financial Statements during High Inflation Periods

In accordance with CMB's decision numbered 11/357 on 17 March 2005, inflation accounting application has been abolished as of 1 January 2005 for the companies operating in Turkey and preparing financial statements in accordance with Turkey Accounting Standards. Accordingly, as of 1 January 2005 "Financial Reporting in Hyperinflationary Economies" (TAS 29) has not been applied.

2.1.4 Offsetting

The financial assets and liabilities in the consolidated financial statements are shown at their net value when a legal granted permission, an intention of stating the consolidated financial statements with their net values and the financial asset and liabilities are arisen concurrently.

2.1.5 Comparatives and Adjustment of Prior Periods' Financial Statements

The Group's consolidated financial statements for the current period are prepared in comparison with the previous periods in order to be able to determine the financial position and performance trends. The comparative information is reclassified when necessary with the aim of ensuring consistency with the presentation of the current period's consolidated financial statements and significant differences are disclosed.

2.1.6 Amendments in Standards and Interpretations

New and amended Turkish Financial Reporting Standards that are effective as of 2019

TFRS 16	<i>Leases</i>
Amendments to TAS 28	<i>Long-term Interests in Associates and Joint Ventures</i>
TFRS Interpretation 23	<i>Uncertainty over Income Tax Treatments</i>
Amendments to TAS 19	<i>Amendments to Employee Benefits</i>
<i>Annual Improvements to 2015-2017 Cycle</i>	<i>Amendments to TFRS 3, TFRS 11, TAS 12 and TAS 23</i>

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

2.1.6 Amendments in Standards and Interpretations (cont'd)

New and amended Turkish Financial Reporting Standards that are effective as of 2019 (cont'd)

TFRS 16 Leases

General impact of application of TFRS 16 Leases

TFRS 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements for both lessors and lessees. TFRS 16 supersedes the current lease guidance including TAS 17 Leases and the related Interpretations for accounting periods beginning on or after 1 January 2019. The date of initial application of TFRS 16 for the Company is 1 January 2019 retrospectively taking into account the cumulative effect in the financial statements.

In contrast to lessee accounting, TFRS 16 substantially carries forward the lessor accounting requirements in TAS 17.

Impact of the new definition of a lease

The Group made use of the practical expedient available on transition to TFRS 16 not to reassess whether a contract is or contains a lease. Accordingly, the definition of a lease in accordance with TAS 17 and TFRS Interpretation 4 continue to apply to those leases entered or modified before 1 January 2019.

The change in definition of a lease mainly relates to the concept of control, TFRS 16 distinguishes between leases and service contracts on the basis of whether the use of an identified asset is controlled by the customer. Control is considered to exist if the customer has:

- The right to obtain nearly all of the economic benefits that will be derived from the use of the asset; and
- The right to manage the use of the defined asset.

The Group applied the definition of a lease and related guidance set out in TFRS 16 to all lease contracts entered into or modified on or after 1 January 2019, (whether it is a lessor or a lessee in the lease contract).

Impact on Lessee Accounting

Operating leases

TFRS 16 changes how the Group accounts for leases previously classified as operating leases under TAS 17, which were off-balance sheet.

On initial application of TFRS 16, for all leases (except as noted below), the Group has:

- a) Recognised right-of-use assets and lease liabilities in the statement of financial position, initially measured at the present value of the future lease payments;
- b) Recognised depreciation of right-of-use assets and interest on lease liabilities in the statement of profit or loss;
- c) Separated the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the cash flow statement.

Lease incentives (e.g. rent-free period) are recognised as part of the measurement of the right-of-use assets and lease liabilities whereas under TAS 17 they resulted in the recognition of a lease liability incentive, amortised as a reduction of rental expenses on a straight-line basis.

Under TFRS 16, right-of-use assets are tested for impairment in accordance with TAS 36 *Impairment of Assets*. This will replace the previous requirement to recognise a provision for onerous lease contracts.

For short-term leases (lease term of 12 months or less) and leases of low-value assets (such as personal computers and office furniture), the Group opted to recognise a lease expense on a straight-line basis as permitted by TFRS 16.

As at 1 January 2019, the impact of TFRS 16 on the financial statements of the Group is disclosed in “the effects of accounting policy amendments” note.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

2.1.6 Amendments in Standards and Interpretations (cont'd)

New and amended Turkish Financial Reporting Standards that are effective as of 2019 (cont'd)

TFRS 16 Leases (cont'd)

Impact on Lessee Accounting (cont'd)

Operating leases (cont'd)

Finance leases

The main differences between TFRS 16 and TAS 17 with respect to assets formerly held under a finance lease is the measurement of the residual value guarantees provided by the lessee to the lessor. TFRS 16 requires that the Company recognises as part of its lease liability only the amount expected to be payable under a residual value guarantee, rather than the maximum amount guaranteed as required by TAS 17. During the initial application of the standard, the Group has made no changes in the presentation of the equipment subject to leasing and the lease obligations shown in financial liabilities.

Impact on Lessor Accounting

Under TFRS 16, a lessor continues to classify leases as either finance leases or operating leases and account for those two types of leases differently. However, TFRS 16 has changed and expanded the disclosures required, in particular regarding how a lessor manages the risks arising from its residual interest in leased assets.

Under TFRS 16, an intermediate lessor accounts for the head lease and the sublease as two separate contracts.

Due to this amendment, the Group has reclassified some of the sub-lease agreements as financial lease. In accordance with the provisions of TFRS 9, the expected credit losses are recognized in the lease receivables. The leased assets are derecognized and the leased asset receivables are included in the financial statements.

Amendments to TAS 28 Long-term Interests in Associates and Joint Venture

This amendment clarifies that an entity applies TFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture but to which the equity method is not applied.

TFRS Interpretation 23 Uncertainty over Income Tax Treatments

This Interpretation addresses the application of recognition and measurement provisions under TAS 12 when there is uncertainty over income tax treatments.

Amendments to TAS 19 Employee Benefits

The Amendments to TAS 19 *Employee Benefits* address the impact of the changes in defined benefit plans (one of the two benefits provided after employment relationship is ended defined benefit plans and defined contribution plans) to the recognition of the defined benefit plans, and TAS 19 has been amended.

Annual Improvements to TFRS Standards 2015–2017 Cycle

Annual Improvements to TFRS Standards 2015–2017 Cycle include amendments to TFRS 3 *Business Combinations* and TFRS 11 *Joint Arrangements* in when a party that participates in, but does not have joint control of, TAS 12 *Income Taxes*; income tax consequences of dividends in profit or loss, and TAS 23 *Borrowing Costs* in capitalized borrowing costs.

Other than TFRS 16, these standards, amendments and improvements have no impact on the financial position and performance of the Group.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

2.1.6 Amendments in Standards and Interpretations (cont'd)

New and revised TFRSs in issue but not yet effective

The Group has not yet adopted the following standards, amendments, and interpretations to the existing standards:

TFRS 17	<i>Insurance Contracts</i>
Amendments to TFRS 3	<i>Definition of a Business</i>
Amendments to TAS 1	<i>Presentation of Financial Statements</i>
Amendments to TAS 8	<i>Accounting Policies, Changes in Accounting Estimates and Errors</i>

TFRS 17 Insurance Contracts

TFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 supersedes TFRS 4 Insurance Contracts as of 1 January 2021.

Amendments to TFRS 3 Definition of a Business

The definition of “business” is important because the accounting for the acquisition of an activity and asset Group varies depending on whether the Group is a business or only an asset Company. The definition of “business” in TFRS 3 Business Combinations standard has been amended. With this change:

- By confirming that a business should include inputs and a process; clarified that the process should be essential and that the process and inputs should contribute significantly to the creation of outputs,
- The definition of a business has been simplified by focusing on the definition of goods and services offered to customers and other income from ordinary activities,
- An optional test has been added to facilitate the process of deciding whether a company acquired a business or a Company of assets.

Amendments to TAS 1 Presentation of Financial Statements and TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Material

The amendments in Definition of Material (Amendments to TAS 1 and TAS 8) clarify the definition of ‘material’ and align the definition used in the Conceptual Framework and the standards.

2.2 Effects of Revised Accounting Policies

The Group has applied the TFRS 16 “Leases” standard, which replaces TAS 17 “Leasing Transactions”, as of January 1, 2019. The Group has not restated the comparative amounts for the previous year by using the simplified transition application. With this method, all right-of-use assets have been measured over the lease obligations during the transition to application (which are prepaid or restated according to the lease costs accrued).

	TL
Operational leasing commitments as of 31 December 2018 (not discounted)	3.855.730
Total lease obligation under TFRS 16 (discounted)	3.413.133
Short-term lease obligations	1.763.436
Long-term lease obligations	1.649.697

On adoption of TFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as “operating leases” under the principles of TAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 January 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on 1 January 2019 was 20% for TL and 4,8% for EUR.

On the initial application, the Group has recognized the lease obligation related to its leases previously classified as operational leases in accordance with TAS 17. These obligations have been measured at the present value of the remaining lease payments discounted using alternative borrowing interest rates as of 1 January 2019.

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.2 Effects of Revised Accounting Policies (cont'd)

Finance leases

The main differences between TFRS 16 and TAS 17 with respect to assets formerly held under a finance lease is the measurement of the residual value guarantees provided by the lessee to the lessor. TFRS 16 requires that the Company recognises as part of its lease liability only the amount expected to be payable under a residual value guarantee, rather than the maximum amount guaranteed as required by TAS 17.

As of 31 December 2019, when the current terms and conditions of the Group's existing financial lease agreements are analyzed, this amendment does not have a significant impact on the consolidated financial statements of the Group.

The effects of TFRS 16 application on the consolidated statement of financial position as at 31 December 2019 are as follows:

	31 December 2019		
	Except TFRS 16 Effects	TFRS 16 Effects	Including TFRS 16 Effects

2.3 Summary of Significant Accounting Policies

2.3.1 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. Cash and cash equivalents include cash on hand, deposits at banks and highly liquid short-term investments, with maturity periods of less than three months, which has insignificant risk of change in fair value.

2.3.2 Trade receivables and provision for allowance

Trade receivables as a result of providing goods or services by the Group directly to a debtor are carried at amortised cost using original effective interest rates.

Provision for impairment of trade receivables is established if there is objective evidence that the Group will not be able to collect all amounts due. The amount of the provision is the difference between the carrying amount and the recoverable amount, being the present value of all cash flows, including amounts recoverable from guarantees and collateral, discounted based on the original effective interest rate of the originated receivables at inception.

If the impairment amount decreases due to an event occurring after the write-down, the release of the provision is credited to other income in the current period.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.2 Trade receivables and provision for allowance (cont'd)

The Group collects most of the receivables from domestic vehicles sales through the “Direct Debit System” (DDS). Within this system which is also named as Direct Collection System; the contracted banks warrant the collection of the receivables within the limits granted to the dealers. Trade receivables are transferred by the contracted banks to the Group’s bank accounts at the due dates.

2.3.3 Inventories

Inventories are stated at the lower of cost or net realizable value. The inventories of the Group mainly composed of trucks, small trucks, midi buses, pickups and spare parts which belong to those vehicles. The cost of inventories is determined on the monthly weighted moving average method. Cost of the finished and work in process good include raw materials, direct labour cost, related general production expenses and exclude the cost of borrowing. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses. The allocation of fixed production overheads to the costs of conversion is based on the normal capacity of the production facilities. Idle time expenses arising from the ceases in production other than planned in the factory’s annual production plan are not associated with inventories and are recognised as cost of finished goods.

2.3.4 Property, plant and equipment and related depreciation

While property, plant and equipment are presented on financial statement according to the adjusted values based on the effects of inflation as of 31 December 2004 for the assets acquired before 1 January 2005, they are presented on the financial statements by deducting accumulated depreciation from cost values for the assets acquired after 2005. As of 31 December 2017, lands and buildings have been monitored by revaluation method. Depreciation is calculated using the straight-line method based on their economic lives. The following rates, determined in accordance with the economic lives of the fixed assets, are used in calculation of depreciation:

Type	Depreciation rates (%)
Land Improvements	7-20
Buildings	2-50
Machinery and Equipment	10-25
Motor Vehicles	10-25
Furnitures and Fixtures	10-20
Other Property, Plant and Equipment	10-20

Revaluation Method

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from those that would be determined using fair values at the end of each reporting period.

Any revaluation increase arising on the revaluation of such land and buildings is recognized in other comprehensive income and accumulated in equity, except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously expensed. A decrease in the carrying amount arising on the revaluation of such land and buildings is recognized in profit or loss to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognized impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalized in accordance with the Group’s accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.4 Property, plant and equipment and related depreciation (cont'd)

Depreciation on revalued buildings is charged to profit or loss. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the properties revaluation reserve is transferred directly to retained earnings.

Freehold land is not depreciated. Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Except for land and investments in progress, cost or valued amounts of property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Expected useful life, residual value and depreciation method are reviewed every year for the possible effects of the changes in estimates and accounted for prospectively if there is a change in the estimates.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

Depreciation calculations have been made for buildings subject to revaluation as of 31 December 2019 by taking into consideration their remaining useful lives.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

2.3.5 Intangible assets and related amortisation

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets are comprised of software programme rights, brand and patent rights and development expenses. Amortization is calculated using the straight-line method based on their economic lives unless they exceed five years.

2.3.6 Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any. For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized directly in profit or loss in the consolidated statement of profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate is described under "Investments in associates" heading.

2.3.7 Impairment of assets

All assets are reviewed for impairment losses including property, plant and equipment and intangible assets whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If such an indication exists, the recoverable amount of the asset is presumed. The recoverable amount is presumed in each year-end for unusable intangible assets. An impairment loss is recognised for the amount by which the carrying amount of the asset or a cash-generating unit related to the asset exceeds its recoverable amount, which is the higher of an asset's net selling price and value in use. Impairment losses are recognised in the statement of income. Impairment losses on assets can be reversed, to the extent of previously recorded impairment losses, in cases where increases in the recoverable value of the asset can be associated with events that occur subsequent to the period when the impairment loss was recorded.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.8 Bank loans and borrowing costs

Borrowings are recognised initially at the proceeds received, net of transaction costs incurred. In subsequent periods, borrowings are stated at amortised cost using the effective yield method; any difference between proceeds (net of transaction costs) and the redemption value is recognised in the statement of income as financing cost over the period of the borrowings. When it comes to the assets which take long time to get ready to usage and sales, borrowing costs related to production or construction are integrated to the cost of the asset.

2.3.9 Taxes on income

Tax liability on current period's profit or loss includes current period tax and deferred tax. Current year tax liability consists of tax liability on the taxable income calculated according to currently enacted tax rates and to the effective tax legislation as of balance sheet date.

Deferred tax is provided, using the liability method, on the temporary differences between the carrying values of assets and liabilities and their carrying. The tax value of assets and liabilities represent the amounts that will affect the tax base in the future periods related to the assets and liabilities within the framework of tax legislation. Deferred tax is calculated over the tax rates that are expected to apply in the period when the tax asset or the liability will be realized by taking into consideration the tax rates and tax legislation in effect as of the balance sheet date.

Deferred tax liabilities are recognised for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilised. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future. Deferred tax assets and liabilities related to income taxes levied by the same taxation authority are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities.

2.3.10 Provision for employee benefits

The Group is obliged to pay termination indemnities to employees whose employment is terminated due to retirement or due to reasons other than resignation or behavior specified in the Labor Code, in accordance with the applicable law. The retirement benefit obligation recognized in the consolidated statement of financial position represents the present value of the defined benefit obligation.

2.3.11 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. If the provision amount decreases, in the case of an event occurring after the provision is accounted for, the related amount is classified as other income in the current period.

2.3.12 Research and development expenses

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as intangible assets when it is probable that the project will be a success considering its commercial and technological feasibility, and only if the cost can be measured reliably. Other development expenditures are recognised as expense as incurred. Subsidies received from Tübitak are accounted for as deferred income by Group and are offset with amortisation expenses in the income statements in line with the useful life of the completed projects. Development costs are directly recognised as expense. Development expenses recognised as expense in prior periods are not subject to capitalisation in subsequent periods.

2.3.13 Warranty provision expenses

Warranty expenses are recognised on an accrual basis for amounts estimated based on prior periods' realization.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.14 Related parties

For the purpose of these consolidated financial statements, shareholders, key management personnel and board members, in each case together with their families and companies controlled by/or affiliated with them and associated companies are considered and referred to as related parties. The transactions with related parties for operating activities are made with prices which are convenient with market prices.

2.3.15 Foreign currency transactions

Transactions in foreign currencies during the year have been translated at the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies have been translated into TL at the Central Bank of Turkey's exchange rates prevailing at the balance sheet dates. Foreign currency exchange gains or losses arising from the settlement of such transactions and from the translation of monetary assets and liabilities are recognised in the statement of income.

2.3.16 Earnings per share

Earnings per share disclosed in the statement of income are determined by dividing net earnings by the weighted average number of shares that have been outstanding during the related year concerned.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("no-par shares") to existing shareholders from retained earnings and the revaluation surplus. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issues without a corresponding change in resources, by giving them retroactive effect for the year in which they were issued and for each earlier year.

2.3.17 Revenue recognition

Warranties given for sales cannot be purchased separately. These warranties are assured that the products sold are in compliance with the pre-determined conditions. In this respect, the Group will continue to recognize the warranty provisions in accordance with the provisions of the existing TAS 37 Provisions, Contingent Liabilities and Conditional Assets.

Commercial vehicle and spare part sales

The Group recognizes income according to the accrual basis, when the Group reasonably determines the income and economic benefit is probable. Group's revenues are comprised of sales of commercial vehicles and the spare parts of those commercial vehicles. Net sales is determined by reducing customer returns and sales discounts.

Revenue from the sale of goods is recognized when all the following conditions are gratified:

- The significant risks and the ownership of the goods are transferred to the buyer,
- The Group refrains the managerial control over the goods and the effective control over the goods sold,
- The revenue can be measured reasonably,
- It is probable that the economic benefits related to transaction will flow to the entity,
- The costs incurred or will be incurred in conjunction with the transaction can be measured reliably.

Service rendering

When the revenue from services can be measured reliably, the revenue is recorded in accordance with its completion level. If the revenue cannot be measured reliably, revenues are recognized as much as the recoverable amount of expenses that are associated with these revenues.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.17 Revenue recognition (cont'd)

Dividend income

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

Rent income

Rent income from investment properties is recognized on a straight-line basis over the term of the respective lease.

When there is significant amount of cost of financing included in the sales, the fair value is determined by discounting all probable future cash flows with the yield rate, which is embedded in the cost of financing. The difference is included in financial statements on accrual basis.

2.3.18 Reporting of cash flows

In the statement of cash flows, cash flows during the period are classified under operating, investing or financing activities.

The cash flows raised from operating activities indicate cash flows due to the Group's operations.

The cash flows due to investing activities indicate the Group cash flows that are used for and obtained from investments (investments in property, plant and equipment and financial investments).

The cash flows due to financing activities indicate the cash obtained from financial arrangements and used in their repayment.

Cash and cash equivalents include cash and bank deposits and the investments that are readily convertible into cash and highly liquid assets with less than three months to maturity.

2.3.19 Contingent assets and liabilities

Possible assets or obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group are not included in the consolidated financial statements and treated as contingent assets or liabilities.

2.3.20 Government Grants

Government grants are not recognized until there is reasonable assurance that the entity will comply with the conditions attaching to them and the grants will be received. Government grants are recognized as income over the periods necessary to match them with the related costs, which they are intended to compensate, on a systematic basis. Government grants and assistance received for R&D purposes of the Group are explained in Note 12.

2.3.21 TFRS 9 Financial Instruments

TFRS 9, Financial instruments; effective from annual periods beginning on or after 1 January 2018. This standard replaces the guidance in TAS 39. It includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the current incurred loss impairment model. Group has carried out valuation studies to determine the cumulative effect of the first transition and concluded that no changes should be made to the consolidated financial statements.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.21 TFRS 9 Financial Instruments (cont'd)

Financial assets

At initial recognition, the Group measures a financial asset at its fair value, except for trade receivables that do not contain significant financing component. The Group measures trade receivables at their transaction price (as defined in TFRS 15) if the trade receivables do not contain a significant financing component in accordance with TFRS 15 (or when the entity applies the practical expedient) at initial recognition.

In the initial measurement of financial assets except at fair value through profit or loss, transaction costs directly attributable to the acquisition or export of such assets are added to or deducted from the fair value. Financial assets that are traded in the normal course are recognized at the date of the transaction (delivery date).

The Group reclassifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both: (a) the Group's business model for managing the financial assets, and (b) the contractual cash flow characteristics of the financial asset. When, and only when, the Group changes its business model for managing financial assets, it reclassifies all affected financial assets. The Group applies the reclassification prospectively from the reclassification date. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Financial assets measured at amortized cost

A financial asset is measured at amortised cost if both of the following conditions are met:

(a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and

(b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest revenue of financial assets measured at amortised cost is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

(a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition.

(b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortised cost of the financial asset in subsequent reporting periods.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset and recognises a modification gain or loss in profit or loss.

The Group directly reduces the gross carrying amount of a financial asset when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.21 TFRS 9 Financial Instruments (cont'd)

First-time adoption of TFRS 9 “Financial instruments” (cont'd)

Financial assets (cont'd)

Financial assets measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A gain or loss on a financial asset measured at fair value through other comprehensive income is recognised in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognised or reclassified. When the financial asset is derecognised the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment. If the financial asset is reclassified out of the fair value through other comprehensive income measurement category, the Company accounts for the cumulative gain or loss that was previously recognised in other comprehensive income in the financial statements. Interest calculated using the effective interest method is recognised in profit or loss.

At initial recognition, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.

Financial assets measured at fair value through profit or loss

A financial asset shall be measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income.

Financial assets that are not designated as an effective hedging instrument against financial risk are also classified as financial assets at fair value through profit or loss. The related financial assets are presented with their fair values and the gains and losses arising from the valuation are recognized in profit or loss.

Impairment

The Group recognises a loss allowance for expected credit losses on financial assets that are measured at amortized cost or fair value through other comprehensive income.

The Group applies the impairment requirements for the recognition and measurement of a loss allowance for financial assets that are measured at fair value through other comprehensive income. However, the loss allowance is recognised in other comprehensive income and does not reduce the carrying amount of the financial asset in the statement of financial position.

At each reporting date, the Group measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses except for purchased or originated credit impaired financial assets. For purchased or originated credit-impaired financial assets, the Group only recognizes the cumulative changes in lifetime expected credit losses since initial recognition as a loss allowance at the reporting date.

The Group measures the loss allowance at an amount equal to lifetime expected credit losses for trade receivables, contract assets and lease receivables that do not contain a significant financing component, which is referred as simplified approach.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

2.3.21 TFRS 9 Financial Instruments (cont'd)

First-time adoption of TFRS 9 “Financial instruments” (cont'd)

Financial liabilities

Financial liabilities are initially measured at fair value. During initial recognition of financial liabilities not designated fair value through profit or loss, all directly attributable transaction costs related to underwriting of financial liabilities, added to this fair value.

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for:

- (a) financial liabilities at fair value through profit or loss: Such liabilities, including derivatives that are liabilities, are subsequently measured at fair value.
- (b) financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies. If a transfer does not result in derecognition because the Company has retained substantially all the risks and rewards of ownership of the transferred asset, the Company continues to recognise the transferred asset in its entirety and recognises a financial liability for the consideration received. In subsequent periods, the Company recognises any income on the transferred asset and any expense incurred on the financial liability.
- (c) contingent consideration recognised by an acquirer in a business combination to which TFRS 3 applies. Such contingent consideration is subsequently be measured at fair value with changes recognised in profit or loss.

The Group does not reclassify any financial liability.

Recognition and derecognition of financial assets

The Group recognises a financial asset or a financial liability in the statement of financial position when the Group becomes party to the contractual provisions of the instrument. The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received. The Group only derecognizes the obligation if the obligation defined in the contract is lifted or canceled or if it expires on time.

2.3.23 Events after the reporting period

Subsequent events and announcements related to net profit or even declared after other selective financial information has been publicly announced, include all events that take place between the balance sheet date and the date when the balance sheet is authorised for issue.

In the case that events requiring an adjustment to the consolidated financial statements occur subsequent to the balance sheet date, the Group makes the necessary corrections on the consolidated financial statements.

2.4 Changes in Accounting Estimates and Errors

Accounting estimates are made based on reliable information and using appropriate estimation methods. However, if new or additional information becomes available or the circumstances, which the initial estimates based on, change, then the estimates are reviewed and revised, if necessary. If the change in the accounting estimates is only related to a sole period, then only that period's financial statements are adjusted. If the amendments are related to the current as well as the forthcoming periods, then both current and forthcoming periods' financial statements are adjusted.

Significant accounting errors are applied retrospectively and the consolidated financial statements of the previous period are restated.

NOTE 2 -BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.4 Changes in Accounting Estimates and Errors (cont'd)

As a result of the assessments made in 2019, the management of the Company determined that there is a need for adjustments in some records due to the use of incorrect exchange rates in the transactions related to a foreign sales project realized in 2018. The effects of these errors on the consolidated financial statements have been evaluated and the errors determined as a result of these evaluations have been corrected retrospectively. Accordingly, the consolidated financial statements as of 31 December 2018 and the consolidated statement of profit or loss are restated as follows:

31.12.2018 Statement of Financial Position	Previously Reported	Adjustment Effect	Restated
Inventories	481.922.342	(3.875.538)	478.046.804
Trade Receivables	238.883.170	10.932.690	249.815.860
Trade Payables	320.286.921	4.932.133	325.219.054
Deferred Income	18.689.143	2.315.363	21.004.506
Deferred Tax Liability	6.530.661	(167.122)	6.363.539
Net Profit/Loss for the Period	(67.225.774)	(13.282.826)	(80.508.600)
31.12.2018 Statement of Profit or Loss	Previously Reported	Adjustment Effect	Restated
Cost of Sales (-)	(994.834.345)	(8.807.671)	(1.003.642.016)
Other Expenses from Operating Activities (-)	(118.462.259)	(4.642.277)	(123.104.536)
Deferred Tax Income	13.716.965	167.122	13.884.087
Net Profit/Loss for the Period	(67.225.774)	(13.282.826)	(80.508.600)

2.4.1 Other Accounting Estimates

In instances where the accounting estimates affect both current and forthcoming periods, then description and monetary value of the estimate is disclosed in the notes to the financial statements except instances where the estimation of the effect related to upcoming periods are not possible.

- a) Deferred tax assets can be recognised only when sufficient taxable profit is likely to occur in the upcoming periods. While evaluating, the future profit projections and the applicable approaches of unused losses within the scope of tax legislation have been taken into consideration. If a tax advantage is likely, deferred tax assets are calculated based on the deductible financial losses. As of 31 December 2019, the Group has deductible financial losses of TL 158.700.909 (31 December 2018: TL 129.485.428). The Group has recognized deferred tax assets of TL 32.252.554 (31 December 2018: TL 26.409.458) as sufficient taxable profit is likely to occur in the upcoming periods over the portion of the losses amounting to TL 158.700.909.

- b) The Group determined the warranty provision based on warranty costs for each vehicle model in previous years and the remaining warranty periods for each vehicle.

c) Useful lives of property, plant and equipment:

The Group reviews the estimated useful lives of property, plant and equipment at the end of each reporting period. The Company may shorten or prolong the useful lives and related depreciation of property, plant and equipment by taking into consideration the intended use of property, plant and equipment, technological progress according to their types and other factors.

d) Revaluation of land improvements and buildings:

Land improvements, evaluation of buildings and machinery have been made by taking into consideration the current market conditions. As a result of the revaluation, provision for impairment of the fixed assets with fair value lower than the cost value is made.

The Group's land improvements and buildings have been revalued by independent appraisals accredited by the Capital Markets Board. The Group's land improvements and buildings have been revalued by independent appraisals accredited by the Capital Markets Board. The revaluation fund which is composed of the difference between the book value and the fair value is offset with deferred tax and shown under the equity as revaluation fund. Revaluation is performed periodically.

e) Estimated impairment of goodwill

The Group annually tests goodwill for impairment. The recoverable amounts of cash generating units are determined based on the calculations of value in use.

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 3 –SEGMENT REPORTING

The field of activity of the Group established in Turkey is the manufacture, assembly, import and sale of motor vehicles and spare parts. The field of activity of the Group, the nature and economic properties of products, production processes, classification according to customer risks and methods used in the distribution of products are similar. Moreover, the Group is structured on an activity basis rather than being managed under separate divisions including different activities. Thus, the operations of the Group are considered as a single activity division, and the outputs of the Group's activities, determination of the resources to be allocated to these activities, and review of the performance of these activities are evaluated accordingly.

NOTE 4 - CASH AND CASH EQUIVALENTS

Cash and cash equivalents presented in the consolidated cash flow statements as of the end of the period:

	<u>31 December 2019</u>	<u>31 December 2018</u>
Cash	92.839	135.442
Banks-Demand Deposits	5.512.789	10.910.388
Banks-Time Deposits (up to 3 months)	134.588.657	85.072.854
Other Liquid Assets (*)	609.269	387.345
Total	140.803.554	96.506.029

(*) As of 31 December 2019 and 31 December 2018, the balance in "Other Liquid Assets" is consist of directly debiting system assets and credit card receivables in bank of group.

There are no blocked deposits as of 31 December 2019 and 31 December 2018.

Cash and cash equivalents presented in the consolidated cash flow statements as of 31 December 2019 and 31 December 2018 are as follows:

	<u>31 December 2019</u>	<u>31 December 2018</u>
Liquid Assets	140.803.554	96.506.029
Interest Accruals (-)	(12.985)	(24.541)
Total (Excluding interest accruals)	140.790.569	96.481.488

The details of time deposits are as follows:

	<u>31 December 2019</u>		<u>31 December 2018</u>	
	<u>Amount in TL</u>	<u>Annual Average Interest Rate (%)</u>	<u>Amount in TL</u>	<u>Annual Average Interest Rate (%)</u>

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 12 – RIGHT-OF-USE ASSETS

The Group started to apply TFRS 16 Leases Standard for the first time on 1 January 2019. For the leases that are previously classified as operating leases in accordance with TAS 17, a right-of-use asset is included in the condensed consolidated financial statements over the same amount as lease liability restated according to all lease payment amounts that are prepaid and accrued as of 1 January 2019.

As of 31 December 2019, the right-of-use assets' balances of depreciation assets and depreciation expenses in the relevant period are as follows:

<u>Cost Value</u>	
-	-
Opening Balance as at 1 January 2019	3.413.133
Additions	3.599.412
Closing balance as at 31 December 2019	7.012.545
<u>Accumulated Amortization</u>	
-	-
Opening Balance as at 1 January 2019	-
Charge for the Period	(1.682.030)
Closing balance as at 31 December 2019	(1.682.030)
<u>Carrying Value</u>	
-	-
Opening Balance as at 1 January 2019	3.413.133
Closing balance as at 31 December 2019	5.330.515

TL 586.998 of depreciation expenses has been charged to cost of sales, and TL 1.095.032 to general administration expenses as of 31 December 2019.

NOTE 13 - GOODWILL

As of 31 December 2019, there is goodwill amounted to TL 2.340.995 (31 December 2018: TL 2.340.995). The Group has calculated the recoverable amount of goodwill and no impairment is recognized. In this calculation, a discount rate of 24% (2018: 25% per annum) was used with 5-year cash flows prepared based on the budgets approved by the management.

NOTE 14- GOVERNMENT GRANTS AND INCENTIVES

The cash support amount, which was collected from TUBITAK in relation to R&D activities in 2019, is the TL 544.054. The cash support amount, which was collected from TUBITAK in relation to R&D activities in 2018, was the TL 484.841.

The Group has R&D expenses which can be utilized for tax calculations with an amount of TL 183.309.407 as of 31 December 2019. As per amendment made in Article 35 of the Law on Supporting Research and Development No. 5746 which became effective on 1 April 2008. R&D deduction rate from which will be benefited for the expenses of R&D has been increased from 40% to 100% (TL 101.193.234 as of 31 December 2018).

In order to benefit from the incentives and exemptions provided in line with the Law No. 5746, the Group applied to the Ministry of Industry and Commerce to become an R&D centre. On 3 June 2009, the Group was entitled to become an R&D centre.

Regarding the TL 8.688.585 spent as of 31 December 2019 in accordance with Incentive Certificate the Group has started to benefit from the 20% investment incentive and 50% discounted corporate income tax incentive within the framework of Article 32/A of the Corporate Income Tax Law in proportion to the effect of the investment on generated income.

(Amounts expressed in Turkish Lira unless otherwise indicated.)

Lawsuits against the Group:

As of 31 December 2019, there are 80 ongoing lawsuits filed against the Group due to the cancellation of employment termination and other claims for employment and other compensation. Based on these lawsuits, TL 4.174.012, which is recognized based on assessments of the lawyers, was reserved as lawsuit provision (as of 31 December 2018, the lawsuit provisions amount is TL 4.355.690).

Mortgages and guarantees on assets:

There are not any mortgages and guarantees on assets.

Total insurance coverage on assets:

Total insurance coverage on assets is TL 812.616.800 as of 31 December 2019 (31 December 2018: TL 812.616.800).

Contingent liabilities which are not shown in liabilities listed are as follows:

Type	<u>31 December 2019</u>	<u>31 December 2018</u>
Given Letters of Guarantee	317.956.692	158.145.516
Total	317.956.692	158.145.516

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 15 – PROVISIONS, CONTINGENT ASSETS AND LIABILITIES (cont'd)

Contingent liabilities which are not shown in liabilities listed are as follows (cont'd):

	<u>31 December 2019</u>	<u>31 December 2018</u>
A. CPMs given in the name of its own legal personality	317.956.692	158.145.516
i. Letter of Guarantee	317.956.692	158.145.516
B. CPMs given on behalf of fully consolidated companies	-	-
C. CPMs given in the normal course of business activities on behalf of third parties	-	-
D. Total amount of other CPMs	-	-
i. Total amount of CPMs given on behalf of the parent	-	-
ii. Total amount of CPMs given to on behalf of other Group companies which are not in scope of B and C	-	-
iii. Total amount of CPMs given on behalf of third parties which are not in scope of C	-	-
Total	317.956.692	158.145.516

The ratio of other CPM is given by the Group to the Group's equity is 0% as of 31 December 2019 (0% as of 31 December 2018).

The Group is exposed to foreign currency risk since its foreign currency denominated assets and liabilities are formed of different currencies. In order to hedge its foreign currency position due to the fluctuations in the foreign exchange parities, the Group enters into forward contracts.

NOTE 16 – EMPLOYEE BENEFITS

a) Short-Term Provisions for Employee Benefits

	<u>31 December 2019</u>	<u>31 December 2018</u>
Provision for Employee Rights and Salaries	2.950.000	-
Provision for Unused Vacation	1.130.612	843.195
Total	4.080.612	843.195

Short-term provisions for employee benefits consist of provisions that were calculated and unpaid as of the end of period.

b) Long-Term Provisions for Employee Benefits

	<u>31 December 2019</u>	<u>31 December 2018</u>
Provision for Employment Termination Benefits	27.764.472	23.885.435
Total	27.764.472	23.885.435

Within the framework of current laws in Turkey, it is obligatory to make the severance pay of each employee who has completed one year service period, has been paid off regardless of any related reason, has been called-up for military service along with men who have completed 25-year service period, women who have completed 20-year service period or those who have completed age of retirement (58 for women, 60 for men). Because there is not any funding obligation for the severance pay provision in Turkey, any special fund is not allocated in the financial statements.

The severance payments are calculated over 30-days gross salary for each service year. Primary assumption is that ceiling liability set for each service year increases in proportion to inflation. In parallel with this, real discount rate which is cleared of the potential inflation impacts is considered at the implementation stage. The severance pay cap is revised in every six months, the ceiling amount of TL 6.760,15 (1 January 2019: TL 6.017,60) applicable as of 1 January 2020 has been regarded for the calculation of the Group's provision of severance pay.

Moreover, the severance payments are not made for those who leave the job with his/her wish; estimated rate related to these severance pay amounts that will remain in the Group's account is considered.

Considering the Liability of Severance Pay are related to the next periods as per TAS 19, current values of the severance payments which will be made as of the balance sheet date are calculated to determine an approximate inflation expectation whose net difference refers a real discount rate and find an appropriate discount rate.

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 16 – EMPLOYEE BENEFITS (cont’d)

The actuarial assumptions considered in the calculation of the provision for employment termination benefits are as follows:

	<u>31 December 2019</u>	<u>31 December 2018</u>
Annual Net Discount Rate (%)	3,72	3,64
Turnover Rate to Estimate the Probability of Retirement (%)	4,41	3,99

The provision calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees is recognised to the consolidated financial statements.

Movements of the provision for employee termination benefit during the period are as follows:

	<u>31 December 2019</u>	<u>31 December 2018</u>
Opening Balance	23.885.435	19.448.904
Interest Cost	888.760	802.936
Gain/(Loss) on Remeasurement of Defined Benefit Plans	2.922.142	3.724.197
Paid within the period	(2.903.783)	(3.293.349)
Current service cost	2.971.918	3.202.747
Closing Balance	27.764.472	23.885.435

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 18- SHARE CAPITAL, RESERVES AND OTHER EQUITY ITEMS (cont'd)

b) Privileges Granted to the Share Groups

The Company is directed by the fourteen members of the Board of Directors elected among shareholders by General Assembly in accordance with the regulations of Turkish Commercial Code.

Four members of the Board of Directors are elected from the candidates nominated by the shareholders of Group B and the remaining members of the Board of Directors are elected from the candidates nominated by the shareholders of Group A by the General Assembly.

Equity	31 December 2019	31 December 2018
Paid-in Capital	84.000.000	84.000.000
Capital Inflation Adjustment Difference	30.149.426	30.149.426
Reserves on Retained Earning	162.221.926	162.221.926
Retained Earnings	(140.840.586)	(60.331.986)
Gain / (Loss) on Revaluation and Measurement	417.373.045	417.373.045
(Losses) on Remeasurement of Defined Benefit Plans	(10.603.462)	(8.265.748)
Net Profit / (Loss) for The Period	21.787.825	(80.508.600)
Shareholders' Equity Attributable to Equity Holders of the Group	564.088.174	544.638.063
Non-Controlling Shares	-	-
Total Shareholders' Equity	564.088.174	544.638.063

c) Restricted Reserves Appropriated from Profit

Restricted reserves appropriated from profit are comprised of legal reserves and other reserves.

Restricted Reserves Appropriated from Profit	31 December 2019	31 December 2018
Legal Reserves	23.784.678	23.784.678
Real Estate Sale Profit Exemption	138.437.248	138.437.248
Total	162.221.926	162.221.926

Turkish Commercial Code ("TCC") stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's paid-in capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in capital. Under the TCC, the legal reserves can be used only to offset losses and are not available for any other usage unless they exceed 50% of paid-in capital. In addition, the Group's profit on the sale of real estate, which is considered to be within the scope of Article 5/e of Corporate Income Tax Law No. 5520, is classified under this accounting category as a "Real estate sale profit exemption". As of 31 December 2019, the Group's total restricted reserves appropriated from profit are TL 162.221.926 (31 December 2018: TL 162.175.629).

d) Retained Earnings/Losses

Retained earnings is comprised of extraordinary reserves, miscellaneous inflation differences and other prior years' income.

The Group's prior years' income details as of period ends are as follows:

Retained Earnings/Losses	31 December 2019	31 December 2018
Extraordinary Reserves	9.661.446	9.661.446
Legal Reserves Inflation Difference	24.820.489	24.820.489
Retained Earnings / (Losses)	(175.322.521)	(94.813.921)
Total	(140.840.586)	(60.331.986)

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 18- SHARE CAPITAL, RESERVES AND OTHER EQUITY ITEMS (cont'd)

Quoted companies make profit distributions as follows:

If the amount of profit distributions calculated in accordance with the net distributable profit requirements of the CMB does not exceed the statutory net distributable profit, the total amount of distributable profit should be distributed. However, no profit distribution would be made if any financial statements prepared in accordance with the CMB or any statutory accounts carrying net loss for the period. In accordance with the CMB's decision dated 27 January 2010, it is decided not to bring any obligation for any minimum profit distribution about dividend distribution which will be made for publicly owned companies.

Inflation adjustment on Equity; the carrying amount of extraordinary reserves could have been utilised in issuing bonus shares, cash dividend distribution and offsetting accumulated losses. However, equity inflation adjustment differences will be liable to corporate tax if it is used in cash profit distribution.

Group's retained earnings is TL 140.840.586 based on the financial statements prepared in according with TAS/IFRS Financial Reporting Standard for the period ended 31 December 2019.

In accordance with the Communiqué No:XI-29 and related announcements of TAS/IFRS, effective from 1 January 2008, "Share Capital", "Restricted Reserves" and "Share Premiums" shall be carried at their statutory amount. The valuation differences (such as differences from inflation adjustment) shall be classified as follows:

- "the difference arising from the "Paid-in Capital" and not been transferred to capital yet, shall be classified under the "Capital Adjustment to Share Capital";
- the difference due to the inflation adjustment of "Restricted Reserves" and "Share Premium" and the amount has not been utilised in dividend distribution or capital increase yet, shall be classified under "Retained Earnings". Other equity items shall be carried at the amounts calculated based on CMB Financial Reporting Standards.

NOTE 19- REVENUE AND COST OF SALES

NOTE 25- TAXATION ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES)

The Group's tax expense (or income) is comprised of current period corporate tax expense and deferred tax expense (or income).

Account	1 January 2019 31 December 2019	1 January 2018 31 December 2018
Current Income Tax Provision (-)	(314.862)	(262.785)
Deferred Tax Income / (Expense) (Income Statement)	19.313.733	13.884.087
Tax Income / (Expense) - Income Statement	18.998.871	13.621.302
Tax Income / (Expense) (Comprehensive Income Statement)	584.428	744.839
Total Tax Income / (Expense)	19.583.299	14.366.141

	31 December 2019	31 December 2018
Current Corporate Tax Provision	314.862	262.785
Less: Prepaid Taxes	(739.109)	(1.098.616)
Tax Payable	(424.247)	(835.831)

As of 31 December 2019, the amount of corporate tax paid in advance is amounted to TL 424.247 which is portion of exceeding the corporation tax amount to be paid and it is included in the Assets Related to Current Period Taxation (31 December 2018: TL 835.831).

i) Provision for Current Period Tax

The Group is subjected to Corporate Tax in Turkey. Necessary provisions in supplementary financial statements have been made for estimated tax liabilities regarding Group's operations in the current period.

The corporate tax to be accrued over the taxable profit is calculated by adding non-deductible expenses to the accounting profit; deducting investment and research and development allowances, income that is not subjected to taxation and the dividends received, from companies located in Turkey, from the accounting profit.

Consolidation principle is not utilized to prepare financial statements related to tax that is effective in Turkey.

The effective tax rate in 2019 is 22% (2018: 22%).

According to the provisional article 10 added to the Corporate Tax Law, a corporate tax rate of 22% will be taken over the corporate earnings of the corporate taxpayers for the 2018, 2019 and 2020 accounting periods.

Tax losses can be carried forward to offset against future taxable income for up to five years. However, tax losses cannot be carried back to offset profits from previous periods.

According to Corporate Tax Law's 24th article, the corporate tax is imposed by the taxpayer's tax returns. There is not an exact mutual agreement procedure with Tax Authorities in Turkey. Annual corporate tax returns are submitted to the relating tax offices until the 25th of April in the following year. Tax authorities have the right to audit tax declarations and accounting records for 5 years and may issue re-assessment based on their findings.

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 25- TAXATION ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (cont'd)

Income Withholding Tax:

In addition to corporate tax, companies should also calculate income withholding tax on any dividends and income distributed. The rate of income tax withholding is 15%.

ii) Deferred Tax

The deferred tax asset and tax liability are based on the temporary differences, which arise between the financial statements prepared according to TAS/IFRS's accounting standards and statutory tax financial statements. These differences are usually due to the recognition of revenue and expenses in different reporting periods for the TAS/IFRS standards and tax purposes.

Timing differences are result of recognizing certain income and expense items differently for accounting and tax purposes. Timing differences are calculated off of the tangible fixed assets (except land and buildings), intangible fixed assets, stocks, the revaluation of prepaid expenses, discount of receivables, provision for termination indemnities, and previous years' loss. Every accounting year, the Group reviews the deferred tax asset and liabilities, where the deferred tax assets cannot be used against the future taxable income, the Group writes-off the recorded deferred tax asset. Corporate tax rate used in the calculation of deferred taxes is 22% for temporary differences ending in 2018, 2019 and 2020, and 20% for other long-term temporary differences.

Donation was not made to Anadolu Eğitim ve Sosyal Yardım Vakfı by the Group in 2019 (Donation was not made in 2018).

d) Key management compensation:

	<u>31 December 2019</u>	<u>31 December 2018</u>
Salaries and other short-term benefits	10.960.402	9.184.708
Total	10.960.402	9.184.708

The benefits provided to top management (General managers and Directors) include salaries, bonuses, premiums, and the employer's share of social security.

NOTE 28- NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

(a) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximizing its profit and market value through the optimization of the debt and equity balance.

The Group's equity comprised of cash and cash equivalents in Note 4 and equity items in Note 16.

Risks, associated with each capital class, and the capital cost are evaluated by the top management. It is aimed that the capital structure will be set in balance by means of new borrowings or repaying the existing debts as well as dividend payments and new share issuances based on the top management evaluations.

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 28- NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (cont'd)

(a) Capital risk management (cont'd)

The Group monitors capital by using debt to total capital ratio. This ratio is calculated by dividing the net debt by total capital. The net debt is calculated by excluding the cash and cash equivalent amounts from the total debt amount (including credits, leasing and commercial debts as indicated in the balance sheet).

	31 December 2019	31 December 2018
Net Debt	780.635.292	871.436.343
Total Equity	564.088.174	544.638.063
Net Debt/Total Equity	1,38	1,60

Increase of the rate of net debts to equity compared to prior year arise from the periodical increase in using credits.

General strategy of the Group based on shareholders' equity is not different from previous periods.

The Group conducts hedging contracts (including derivative financial instruments) for the purpose of diversifying foreign currency fluctuation risks.

(b) Price risk

Equity instruments which are classified on Group's balance sheet as available-for-sale are subjected to price risk. In order to manage the price risk due to capital instruments. The Group has a limited number of financial assets which are available-for-sale.

(c) Market risk

The Group is subject to the financial risks related to the changes in the exchange rate (Please see (d) below) and interest rate (Please see (e) below) due to its operations and other (Please see (f) below). Also due to having financial instruments, the Group also bears the risk of other parties not meeting the requirements of agreements (Please see (g) below).

Market risks seen at the level of the Group are measured in accordance with sensitivity analyses.

The market risk of the Group incurred during the current year or the method of handling the encountered risks or the method of measuring those risks are not different from the previous year.

(d) Foreign exchange risk management

Foreign currency transactions may result in foreign currency risk.

The Group maintains foreign currency time deposit accounts in banks as the Group has receivables and payables in foreign currencies. As a consequence, the Group is exposed to foreign currency exchange risk due to the changes in exchange rates used for converting assets and liabilities into TL. Foreign exchange risk arises from future trade operations and the differences between assets and liabilities.

(Amounts expressed in Turkish Lira unless otherwise indicated.)

NOTE 28- NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (cont'd)

(e) Interest rate risk management

The Group is exposed to interest rate risk due to variable and fixed interest rates. Group's financial liabilities and assets with fixed and variable interest rates (guarantee etc.) are respectively shown at Note 4.

Interest Rate Position Table

	31 December 2019	31 December 2018
Financial Assets with Fixed Rates		
Financial Assets	134.588.657	85.072.854
Financial Liabilities	(460.943.310)	(634.669.115)
Financial Liabilities With Variable Rates		
Financial Assets	-	-
Financial Liabilities	(33.244.816)	(8.054.203)

As of 31 December 2019, if the market interest rate had increased/decreased by 100 basis point with all other variables held constant, period income before tax and consolidated equity of participations of the Group would have been higher/lower by TL 332.448 (31 December 2018: higher/lower by TL 80.542).

(f) Funding risk

The ability to fund the existing and prospective debt requirements is managed as necessary by obtaining adequate committed funding lines from high quality lenders.

(g) Credit risk management

Holding financial instruments also carries the risk of the other party's not meeting the requirements of the agreement. The Group's collection risk is mainly derived from trade receivables. Trade receivables are evaluated by the management of the Group depending on their past experiences and current economic conditions and are presented in financial statements when necessary allowances for doubtful receivables are provided.

Most of trade receivables are comprised of receivables from costumers who has given an adequate amount of guarantees. An effective control system was established to collect the receivables. Credit risk arising from transactions is followed and these risks are taken into account when assessing each debtor. Because there are so many costumers. The Group's credit risk is dispersed and there is no important credit risk concentration. Receivables from foreign customers as of 31 December 2019 are TL 195.203.049 and there is no geographical concentration (31 December 2018: TL 68.173.508).

Impairment analysis on trade receivables is made over the ageing table and though assessing the management's best estimates.

The Group manages liquidity risk by maintaining adequate reserves, and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Liquidity risk tables

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents and having the availability and flexibility of funding through an adequate amount of (committed) credit facilities.

The risk of meeting existing and probable future liabilities is managed only by means of having access to sufficient number of trustable creditors.

The table below indicates derivative and non-derivative financial liabilities of the Group in terms of TL and maturity term.

Non-Derivative Financial Liabilities

31 December 2019

<u>Contract Terms</u>	<u>Carrying Value</u>	<u>Total Contracted Cash Outflows</u>	<u>Less than 3 Months</u>	<u>3 to 12 Months</u>	<u>1 to 5 Years</u>	<u>5 Years +</u>

NOTE 28- NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (cont'd)

Derivative Financial Liabilities

The Group does not have derivative financial liabilities as of 31 December 2019 and 31 December 2018.

Fair Value and Hedging Disclosures

The Group believes that registered values of financial instruments reflect their fair values.

Objectives of financial risk management

Finding access to financial markets and managing financial risks arisen from operational activities of the Group fall under the responsibility of the Group's finance department. Aforementioned risks include market risk (foreign exchange risk, interest rate risk and price risk); financial risk covers market risk (exchange rate risk, fair value of interest risk and price risk), credit risk liquidity risk and cash flow risk.

Determination of the fair value of financial assets and liabilities are explained below:

Level 1: Valuation of the financial assets and liabilities over the stock exchange prices of similar assets and liabilities resulting from the transactions in active markets.

Level 2: Valuation of the financial assets and liabilities over the price calculated on the basis of the data that is directly or indirectly observable in the market other than the stock exchange price of the relevant asset or liability determined on the first level.

Level 3: Valuation of the financial assets and liabilities carried out in the absence of observable data in the market for determining the fair value of the relevant asset or liability.

Derivative Financial Instruments

In order to hedge these risks, the Group enters into forward foreign currency transaction agreements as a financial instrument where necessary.

As of 31 December 2019, the Group's foreign currency transaction agreement, which is a derivative financial instrument, is as follows (31 December 2018: None):

	Level 1	Level 2	Level 3	Total
Options	-	442.165	-	442.165
Net	-	442.165	-	442.165

NOTE 29- EVENTS AFTER REPORTING PERIOD

None.
