

KONICA MINOLTA

To: Centrul Pentru Achiziții Publice Centralizate în Sănătate

Ref: **In relation to the tender- Achiziționarea dispozitivelor medicale conform necesității instituțiilor medico-sanitare publice IMSP Spitalul Clinic Bălți**

Manufacturer Declaration

On behalf of Konica Minolta, I, Javier Maria Gonzalez Tejera, hereby confirm the following regarding the medical equipment DRYPRO Sigma:

1. Konica Minolta guarantees the availability of original spare parts (or manufacturer-certified equivalent parts) for the above-mentioned equipment for a minimum period of 7 (seven) years from the date of commissioning of the last unit delivered under the contract.
2. This 7-year period:
 - o Begins from the date of commissioning of the last delivered unit;
 - o Remains valid even in the event of discontinuation of the respective equipment model;
3. We commit to notify in writing the Contracting Authority (CAPCS) and the beneficiary institution at least 12 (twelve) months in advance of any discontinuation of production or availability of spare parts for the respective model.
4. A list of critical spare parts, including part numbers and catalog prices, is attached below in Annex.

Konica Minolta SD-S dry film is designed to reproduce a wide range of optical densities, from low to high density regions, ensuring diagnostic image quality. The system maintains density performance through calibrated processing within DRYPRO imagers.

Konica Minolta states that spare parts are provided in accordance with its standardized global pricing catalogs and internal pricing guidelines, valid at the moment of order placement.

Considering the variability of manufacturing conditions and supply chain factors, Konica Minolta does not commit to maintaining fixed prices for spare parts over an extended period.

This letter is issued in support of the bid submitted by Intermed SRL within the public procurement procedure.

Sincerely,

Javier Gonzalez Tejera

Javier Maria Gonzalez Tejera
