CPR FUNCTION

Manual CPR handles are accessible from both sides

REMOTE CONTROL

The hand control with clear icon is beneficial for medical staff which can control the bed position from a remote distance.

BUMPER CASTOR

There are bumper castors on the four corners of the bed, which can reduce the impact of accidentally hitting the wall during the movement.

ANGLE INDICATOR

Angle Indicator on the guardrail, backrest railing indicator for back section adjustment with visible 30 degree mark, knee railing indicator to show degree of trendelenburg

CENTRAL LOCK

Central lock system is convenient for the nurse to push the patient to the required position and quickly lock it with one key, which can appropriately reduce the workload of the medical staff.

EMERGENCY "STOP" BUTTON

The doctor can stop movements in case of emergency

SIDE RAIL LOCK

Tuck-away full length railing meets IEC60601-2-52 safety standard, special protection mechanism can prevent patient to drop down the railing from inside bed

BED BOARD

The ABS bed surface is detachable and has a handle for easy cleaning. The bed surface has vent holes for ventilation.
