Lipid Resistant
Variants

Gloflex
three way stop cock

FEATURES

- ▶ Minimum dead-space for accurate drug administration.
- ▶ Leak-proof up to 6 bars and can withstand the pressure applied in normal procedure without affecting smooth rotation of tap.
- ▶ Rotating luer lock & threaded female ports to facilitate safe and secure connection to luers of other systems.
- ▶ Arrow indication marks on top of tap to indicate the direction of flow.
- ▶ Low profile for stable and safe positioning on the patient's body.
- ▶ Transparent base facilitates better flow observation.
- ▶ Internationally accepted 6% luer taper for compatibility with any standard product.
- ▶ Disposable, Sterile & Non-Pyrogenic.
