VWR®, Sterile Cleanroom Double-Pouch Twist-Seal Bags

Supplier: VWR Collection

PE bags, transparent. These sterile sampling bags provide a secure, contaminant-free pliant container that ensures dependable analysis results. Economical and efficient way to collect, contain and carry samples. With these bags, the user can bring sterile sampling bags into a cleanroom without any worries about contamination. The bags are double-pouched so the user can remove the outer bag before entering the cleanroom, which minimises the number of bags exposed.

- ▶The bags are sterilised inside and out by gamma irradiation
- ▶Sterility certificate in every box
- ▶Lot number traceability for every product
- ▶Maximum opening facilitates inserting samples into the bag
- ▶Easy pull tabs to open the bag without risk of contaminating the interior of the bag
- ▶Bags accommodate solids, semi-solids and liquids
- ▶Free from RNase, DNase, pyrogen and BPA

Certifications: NF ISO 14644-1, ISO 14698, ISO 14644

ORDER
