

弯管型消化道吻合器
Curved-type alimentary stapler

生产企业许可证号：苏食药监械生产许 2001—0154 号
Medical device production license: Su FDA MDML No. 2001-0154
医疗器械注册证号：苏食药监械（准）字 2007 第 2080790 号
Medical device registration number: Su FDA Device (P) 2007 No. 2080790
产品标准号：YZB/ 苏 0792—2007
Product standard number: YZB/Jiangsu 0792-2007

适用范围：适用于食管、胃、肠道作对端或端侧吻合。

Scope of application: Applicable to the end-to-end or end-to-side anastomoses of esophagus, stomach and intestines.

产品特点 (Product features):

▲产品由多次性使用的吻合器器身和一次性使用的钉仓组件组成。

The product consists of a reusable stapler body and a disposable staple cartridge.

▲吻合器器身可多次消毒重复使用，临床只消耗一只钉仓组件，手术费用低。

The stapler body can be reused after resterilization so that it is low in surgical costs as it uses up only one staple cartridge in one clinical application.

▲抵钉座顶端有吊胃管的小孔，临床应用可防止胃管脱开。

A small hole for holding the gastric canal is provided at the top of anvil to prevent the gastric canal from disengagement in clinical application.

▲选用可折弯的抵钉座，可用于颈部吻合，适用于颈部食管与胸顶胃的吻合。

A curvable anvil is selected so that it can be used for anastomosis at the cervical part, including anastomosis in cervical or thoracic esophagogastrostomy.

产品规格 (Product specification):

单位 (Unit): mm

型号规格 Model and size	器械长度 Instrument length	钉仓外径 Outer diameter of staple holder	环形刀口径 Aperture diameter of circular knife	钉数 Number of staplers
