

January 21, 2025

To Whom It May Concern,

This is to acknowledge the productive collaboration between Future Technologies Activity (FTA) and Technovator, an organization that has consistently demonstrated its ability to foster innovation and entrepreneurship in Moldova.

Our collaboration with Technovator has spanned several significant initiatives, including:

1. Deeptech Gigahack

Technovator organizing the largest hackathon in Moldova, which is engaging about 300 participants competing to solve 10 real-world challenges. This event demonstrated their ability to inspire and support innovation at scale.

2. Product Management Conference

In partnership with Technovator, this event of 250 people, provided a platform for professionals to exchange knowledge, explore emerging trends, and enhance their capabilities in product management -a vital area for technological growth.

3. Tech Balti Program

Focused on empowering individuals from the Balti region with essential entrepreneurial skills, Technovator ensured impactful program delivery that addressed both practical needs and long-term development.

Technovator's expertise, commitment to excellence, and innovative spirit have greatly contributed to the success of these initiatives. Their ability to execute impactful and innovative programs that drive tangible outcomes has earned our trust and respect.

We deeply value our collaboration with Technovator and remain confident in their capacity to lead impactful projects. We highly recommend Technovator for any future collaborations, partnerships, or opportunities.

Sincerely,
Cristian Cerneanu
Senior Entrepreneurship and Startups Manager
Future Technologies Activity (FTA)
