#### PLACE AND DATE OF INTERVENTION:

At Jalaram Godown, Mundra, from 20.06.2023 to 22.06.2023

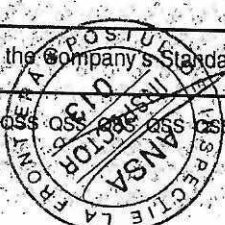

**SAMPLING:** Systematic commodity wise representative samples were drawn from suitable number of bags selected at random from the above consignment. The samples thus drawn were mixed thoroughly to make a composite sample and divided into five parts, each part put into poly bag and sealed. These sealed samples were distributed as under:-

- One sealed sample was handed over to the representative of shipper
- One sealed sample was analyzed by us
- Remaining samples retained by us for record

The record samples will be retained by us for a period of three months unless definite instructions to the contrary are received in the meantime.

All business are undertaken subject to the Company's Standard General Business Conditions which are available on request.

ANALYSIS: Such commodity wise one of the representative samples drawn during inspection was tested in our in-house laboratory and the results obtained are as under:-

Table with 3 columns: PARAMETERS, RESULTS (A), and PROTOCOL. It contains two sections of analysis results for various parameters like Moisture, Foreign Matter, Purity, etc.

Based on the examination of the sample, we are of the opinion that the material is (A) Raisins and the sample material is apparently free from metal glass live or dead insects / Moulded Berries (B) Hulled Sesame Seeds.

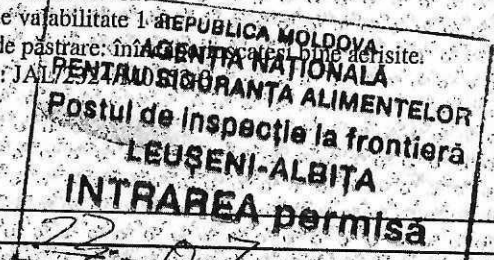

Due to inherent nature of product & or transit climatic effect, deviation in Quality including sweating of the product may occur.

WEIGHING: As declared by the client, 100% cargo container was weighed on Shipper Godown, Mundra as per port practice. As per the B/L, the weight details are as under:- Gross weight of 100-PACKAGES : 17.370 MTS

PACKING: (A) Cargo packed in boxes, (B) Cargo packed in pp-bags, mouth by double stitched by machine.
