VERTICAL TOP LOAD FOR GLASS BOTTLES AND CONTAINERS

A stand alone device using precise servo motor control to test the top load yield strength of glass bottles. Long service life is the cornerstone of design, the Delta TLT is constructed entirely from Stainless Steel and industry standard components.

BENEFITS

- Stand alone
- Fast cycle time
- Robust design
- Complies with ISO 8113-1984

OPERATOR INTERFACE

- Easy to use touchscreen
- Language localization
- Password protection

Status:	Testing	Test Number:	999999
Units:	Kilogram	Test Time:	999.99 (\$)
Setpoint:		99999	
Machine Force:		99999	
Offset:		99999	
Setpoint:			
Machine Force:		Exit

SPECIFICATION

- Max force 25kN
- Max neck diameter: 38mm with standard tooling, up to 110mm also available
- Max container diameter: 180mm
- Max container height: 400mm
- Results: available on screen or exported via RS232

ALSO AVAILABLE

- Single bottle cullet collector
- Ramp Pressure Test
- Glass Bottle Concentricity
