

Mobile 2 RPW

Mobile 2 RPW

Chattanooga's Radial Pressure Wave technology is mobile.

The Mobile 2 RPW is compact and light enough to be easily carried while also delivering a host of features and benefits.

When there is need for a powerful yet portable Radial Pressure Wave device in the clinic or on the sports field, the Chattanooga Mobile 2 RPW is the ideal choice. A lightweight and compact design together with a quiet built-in compressor make it perfect for portable use. A user-friendly experience is at the heart of the Mobile 2 RPW's design. The simple, ergonomically laid out controls enable all of the key parameters to be easily changed, while a clear, illuminated LED display removes ambiguity when monitoring pressure, frequency and number of pulses. Pulses can be initiated via a trigger mechanism on the handpiece.

User Profile

This Radial Pressure Wave clinical unit is ideally suited to the following applications:

- Orthopaedics
- Rheumatology
- Physical Medicine
- Physiotherapy
- Sport Clubs
- Acupuncture
- Aesthetic
- Veterinary

- Cellulite treatment (stages I – III)
- Muscle and connective tissue tightening
- Elimination of lymphatic congestion
- Body shaping
- Regulation of muscle tone
- Medical massage

Facts and figures

- Weight of the unit: Approx. 9 kg
- Dimensions (L x W x H): 32 x 32 x 21 cm
- Built in compressor
- Single and Continuous shocks
 - Frequency D-actor: 1 - 21 Hz
 - Frequency V-actor: 1 - 31 Hz
- Application pressure: 1 - 5 Bar
 - Highly customisable with precise adjustments of 0.1 increments.
- Oscillating D-Actor
- V-Actor Hand piece option
- USB connectivity

User Interface Features

1. Pressure screen 1 - 5 Bar
2. Pulse counter screen
3. Frequency screen
4. Intensity adjustment
5. Pulse counter reset
6. Frequency adjustment

Hand piece docking port

Ultrasound gel holder
