

Performance workhorse

Packed with power: Work throughout your day quickly and conveniently with the latest Intel® processors and up to 32GB of high-speed RAM options, delivering power and reliable performance.

Stay connected: Quickly transmit important business data with built-in WiFi or a Gigabit Ethernet connection.

Improved security: Optional Hardware TPM 2.0 provides the right security to keep your business running.

More multi-tasking: Run multiple apps faster and enjoy sharp, high-quality visuals on everything from PowerPoint presentations to video edits with up to 2GB of optional discrete graphics.

Plenty of room: Save and access presentations, documents and media without worry of space limitations with up to 2TB HDD. For enhanced performance, add up to 512GB M.2 SATA SSD or choose dual drives.

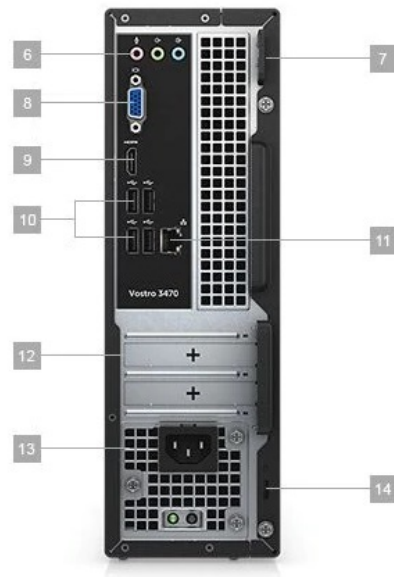

Designed for greatness

Built for desk space: Our patent-pending compact form factor design ensures that you save space without sacrificing features or performance.

Cool factor: The unique mesh design on the front of the system incorporates additional vents, while ultra-fine filters were created to improve airflow, reduce dust and help keep your system cool.

Easy expansion: Need more performance? You can upgrade the Vostro Small Desktop as needed with expansion slot options to keep up with your business growth.

More to see: Support multiple displays for higher productivity with VGA and HDMI ports.
