

69/03

The Working Group of the Public Institution National Office of Vine and Wine hereby informs you that, within the framework of the public procurement procedure conducted through the electronic platform SIA RSAP (M-tender) No. 21560886, ocds-b3wdp1-MD-1770215040799 dated 04 February 2026, regarding the procurement of “Exhibition stand construction services within the international exhibition Prowein 2026, Germany”, CPV Code: 39100000-3, the offer submitted by Smart Vision has been disqualified for the following reasons:

- During the examination of the documents submitted through the electronic system SIA RSAP (M-tender), it was established that the mandatory form “Declaration on the validity of the offer” was submitted in both Romanian and English versions. The document indicates a validity period of 15 days, with an expiry date of 16 February 2026, and is dated 09 February 2026.
- The Declaration on the validity of the offer constitutes a mandatory and essential document within the public procurement procedure, as it represents the firm commitment of the economic operator to maintain its offer for the period established by the contracting authority.
- Considering that the deadline for the opening of tenders was set for 23 February 2026, it results that, at the time of opening, the offer had already expired. Furthermore, the tender documentation required a minimum offer validity period of 30 days. Therefore, the validity period indicated by the economic operator is below the minimum requirement established in the tender documentation and renders the offer non-compliant, as it was not valid at the date of opening.

Pursuant to Art. 69 para. (6) letters a) and b), in conjunction with Art. 65 para. (4) of Law No. 131/2015 on Public Procurement, the offer submitted by Smart Vision is rejected as non-compliant, as it does not meet the minimum requirements stipulated in the tender documentation.

Respectfully,

Director of the National Office of Vine and Wine

Ștefan Iamandi
