To whom it may concern:

Letter of Recommendation

With a great pleasure we sign this Letter of Recommendation to our business partner ATA Consult, as a result of a beautiful collaboration, namely the provision of audit services performed in 2020, within the InfOrganic, Solar Energy Competence Initiative (SECI) Extension of Solar Water System, and CONCEPT IV projects financed by the Liechtenstein Development Service Foundation, whose aim was to strengthen the vocational education and training in Moldova, improve organic farming and consolidation of the renewable energy sector in the Republic of Moldova.

The engagement team was well-coordinated so that the process was managed efficiently and respected the quality standards. The professionalism and skills of the company have significantly contributed to excellent results. The members of the audit team demonstrated experience, necessary skills and thorough knowledge in audit projects, worked responsibly to successfully complete the mission. The performance of this audit mission was the result of the team's ability to communicate and collaborate effectively to successfully achieve the common goal.

Taking into consideration the fact that ATA Consult had to manage the audit of 4 different projects, we were delighted to witness effective quality work. The auditor's report was provided within established time limits.

Given our experience from the contractual engagements with ATA Consult, we are happy to recommend them as a supplier of professional services.

Should you have any questions and/or need further information about ATA Consult and their cooperation with us, please do not hesitate to contact us at +373 22 232 239 or at my e-mail address lilia.stircea@aed.org.

Yours faithfully,

Lilia Stircea
