## What is the CRE™ PRO Wireguided Balloon Dilatation Catheter?

The CRE PRO Wireguided Balloon Dilatation Catheter is the CRE Wireguided Balloon Dilatation Catheter PLUS embedded platinum iridium RO markers and a streamlined profile for optimal passability.

- **Optimized Passability**—Made with a new balloon folding process for a lower profile leading to consistent ease of passage through the scope.
- **Simplified Scope Compatibility**—Compatible with 2.8 mm+ working channel endoscopes and 3.7 mm+ working channel duodenoscopes. Smaller sizes (6-8, 8-10, 10-15mm) are also compatible with 3.2 mm working channel duodenoscopes.
- **Fluoroscopic Visualization**—Embedded RO markers to facilitate balloon placement using fluoroscopy

Canal endoscop. - 2,8 mm,

CRE PRO Wireguided Balloon Dilatation Catheter was the first balloon dilator indicated for use in the DASE procedure for removal of difficult biliary stones.
