

Dispogel®

Urethral Lubricant Gel
with 2 % Lidocaine HCL

Dispogel® is a sterile lubricat gel containing local anesthetic (Lidocaine 2%) and antiseptic (Chlorhexidine Digluconate 0.05%). Dispogel® is available in 12.5 gr and 8,5 gr single use accordion bottle presented in a sterile package.

Dispogel® is used for instillation into the urethra prior to insertion of a catheter or other medical instruments. The insertion of urinary catheters by the helps of Dispogel® Urethral Lubricant Gel with Lidocaine HCL (12.5 gr and 8,5 gr) health professionals minimise associated trauma, pain and catheter-associated infections.

After instillation of gel - WAIT 5-10 minutes prior to insertion of a catheter or other medical instruments- time needed for achieving the lidocaine anesthetic effect.

Dispogel® is a Class III medical device.
