

11009BCK1

- Technical details

Outer diameter at distal end	5.7 mm
------------------------------	--------

Direction of view	0°
-------------------	----

Diameter of working channel	2.6 mm
-----------------------------	--------

Working channel length	64 cm
------------------------	-------

Length	85 cm
--------	-------

Technology / visualization type	Fiber optic
---------------------------------	-------------

Field of application	Bronchoscopy
----------------------	--------------

High-frequency compatible	No
---------------------------	----

Deflection down	100°
-----------------	------

Deflection up	180°
---------------	------

Angle of view	110°
---------------	------
