To whom this may concern,

I would like to express my appreciation for the collaboration with Mr. Maxim Cazacu, project manager, in the renovation of UNFPA Moldova CO Office, located at 131, 31 August 1989 Street, Chisinau.

I would like to mention that Mr. Cazacu is a person with rich professional experience, always with an optimistic mood, inspiring confidence to his team and ensuring that the works are executed within the established deadlines and in high quality standards. His regular visits to the objects, careful monitoring and timely consultations contributed to a reduction in costs and time and excluded any deviations in the final outcome.

Based on the above, I recommend Maxim Cazacu as a professional project manager in renovation works, who will certainly serve as a good specialist ready to offer the best project execution solutions anytime.

Sincerely,
