

CHART PAPERS

Widest choice of articles for a variety of sectors including:
ELECTROCARDIOGRAMS - ELECTROENCEPHALOGRAMS - FOETAL MONITORING - NEUROLOGY
- GYNAECOLOGY - PNEUMOLOGY - INTENSIVE CARE UNITS - POLIGRAPHS - RESUSCITATION
- ULTRASOUND SCANS - LABORATORY ANALYSIS

If requesting an offer, please state: model and instrument code, where possible the paper code and, in any case, the size. For EEG z-folds colour and line distance.

PAPERS FOR ECG

FROM THE SIMPLEST SINGLE-CHANNEL INSTRUMENTS TO THE MOST COMPLEX APPLIANCES FOR STRESS TESTS OR FOR PARTICULAR MONITORING OF CORONARY UNITS, THE BEST SOLUTION FOR ALL QUALITY AND OPERATION REQUIREMENTS CAN BE FOUND IN THE ARTICLES PRODUCED BY CERACARTA. RESEARCH AND STUDY OF THE BEST SUPPORT FOR EACH SPECIFIC APPLIANCE DERIVES FROM AN IN-DEPTH KNOWLEDGE OF THE INSTRUMENTS ON WHICH VARIOUS TYPES OF PAPER ARE USED.

Furthermore constant checks, detailed control and regular technological updating ensure continuously high efficiency in recording. For particular requirements we can supply paper which guarantees conservation of the recording trace for more than 20 years. Ceracarta always guarantees the absolute reliability of its paper with respect to all the instruments available commercially, even the less common.

PAPERS FOR CTG

THE EXTREMELY PRECISE PRINTING OF DIAGRAMS AND BASE SCALES AND THE GAUGED SENSITIVITY OF THERMAL PAPER ARE ESSENTIAL FOR THE BEST FUNCTIONING OF THE FOETAL MONITORING EQUIPMENT AND, THEREFORE, AN EXCELLENT DIAGNOSTIC READING.

Ceracarta has paid special attention to these details, manufacturing products which, also due to the perfection of the lateral holes and the numbering of each page, and owing to the accuracy of the regulating sensors, are among the best available commercially, where too often paper of insufficient efficiency is on offer. Ceracarta represents a guarantee, not found everywhere, also in the sector of foetal monitoring.

PAPERS FOR EEG

IN VIEW OF THE PARTICULAR NATURE OF EEG INSTRUMENTS AND THE DIVERSITY OF THEIR FUNCTIONS, PAPER MANUFACTURERS MUST BE EXTREMELY CAREFUL WHEN EVALUATING THE VARIOUS CHARACTERISTICS OF THE APPLIANCE AND BE VERY FLEXIBLE IN VARYING BASIC RAW MATERIALS.

A great priority must be given to the perfect running of the paper and to its excellent receptivity as for the writing pen. Through its paper Ceracarta constantly guarantees best results also in this sector, even during long recordings, thanks to its perfect adaptability, specifically and attentively researched, for all types of instruments.

PAPERS FOR ANALYSIS LABORATORY AND LABELS

THE APPARENT SIMPLICITY OF PAPERS FOR INSTRUMENTS OF ANALYSIS HAS OFTEN INDUCED CONSUMERS TO BE EASILY SATISFIED TO THE DETRIMENT OF THE QUALITY OF THE REPORT AND, ESPECIALLY OF THE CONSERVATION OVER TIME OF THE DOCUMENTATION RELATING TO THE ANALYSIS.

Also in this field, specialisation is crucial and the quality of the raw materials is of a primary importance. Ceracarta is at your disposal with rolls and packs for all types of instruments for laboratories, guaranteeing optimal functioning and a perfect result.

CERACARTA PRODUCES THERMAL PAPER LABELS, PAPERS FOR THERMAL TRANSFER PRINTERS AND POLYESTER FILMS FOR ANALYSIS LABORATORIES AND TRANSFUSION CENTRES, MANUFACTURED WITH SPECIAL MATERIALS AND ADHESIVES, FOR ALL REQUIREMENTS.

Whatever the use (labels for test tubes, medical reports, radiological envelopes or "blood bags"), an excellent outcome is ensured. Ceracarta has implemented a division for the production of labels and tickets with a microchip (RFID technology) to be applied also to the medical field.

THE COMPANY CERACARTA

- We are leaders in Europe for the manufacturing of paper for electrical diagnostic instruments and industrial recording with over 60 years' experience in the medical sector.
- Advanced technologies, equipment and methodical quality controls for the production of specific chart and plain papers for all diagnostic equipments available on the international market.
- Superior quality materials and absolute manufacturing precision for perfect diagnosis.
- Study and research centre to meet any specific need or customisation requirement and client consulting service.
- Documents and samples sent on request.
- ISO 9001: 2015 - ISO 13485: 2016 - ISO 14001: 2015 - ISO 45001: 2018 - EC CERTIFICATION - COUNCIL DIRECTIVE 93/42/ EEC - MDR 2017/745.

THE WAREHOUSE

WAREHOUSE

Perfect service offered to customers in terms of guaranteeing delivery times, the great care paid when choosing the most suitable form of packaging for the type of shipment, as well as the perfect correspondence between the product supplied and what is requested.

- Optimal management of the stock related to production programmes: all this is guaranteed by a computerised system which now supports the traditional bar code, the revolutionary and brand-new radio frequency transponder system (TAG).
- Professional skill and competence of our staff ensure an ideal service for customers.

MACHINES AND EQUIPMENTS

MACHINES AND EQUIPMENTS

After the new premises were set up, the machineries have been almost completely replaced or modified in order to both improve the quality of the product and to accelerate the production process with lower costs for the customer. The whole production system has the advantage of a double check: on the one hand the specialised technical staff and the automated computer control on the other.
