28 July 2023

To whom it may concern,

On behalf of the USAID Moldova Institutional and Structural Reforms Activity, I commend PNA Software SRL and its experienced team for their outstanding work developing the eDNC web portal for accessing normative acts relating to construction, <https://ednc.gov.md>. Throughout the project, PNA Software SRL demonstrated its unwavering commitment, technical expertise, and exemplary work ethic for successfully implementing the eDNC portal.

One of the most important aspects of PNA Software SRL's performance was their ability to consistently meet project milestones and deliverables ahead of schedule. Despite the inherent complexities and challenges of such an ambitious project, they demonstrated a keen understanding of the project's requirements, thus exceeding our expectations for timeliness and quality.

The eDNC portal developed by PNA Software SRL is a major development in Moldova's construction sector. The platform's user-friendly interface and robust features streamline access to construction laws and regulations, and it empowers construction professionals to make more expeditious, well-informed decisions.

I recommend PNA Software SRL to you for similar work. Please feel free to contact me if you have any questions regarding the eDNC web portal.

Sincerely,

David Anderson
Chief of Party
