OVERVIEW

Balanced Performance that's Ahead of the Curve

Launcher™ coronary guide catheters come with the performance advantages you expect from a market leader – including a wide variety of curve shapes for transradial and femoral percutaneous coronary intervention (PCI).

1. Polymer
2. Encapsulated braid wire
3. Inner jacket
4. Flat braid wire
5. Outer jacket

Launcher Guide Catheters Offer:

- Flexible distal segment to engage the guide for backup support
- Supportive secondary curve for backup support and curve retention
- Workhorse construction for a variety of anatomies and takeoffs
- Larger lumens for excellent contrast flow and enhanced visualization†
- Vest-tech nylon outer jacket for hub-to-tip radiopacity
- Radiopaque marker band to facilitate tip orientation for ostial engagement
- Support for radial and femoral approaches
