

biomedical

Echogenic needles

Bone biopsy needles

Guillotine needles for biopsy on soft tissues

Cyto-aspiration needles

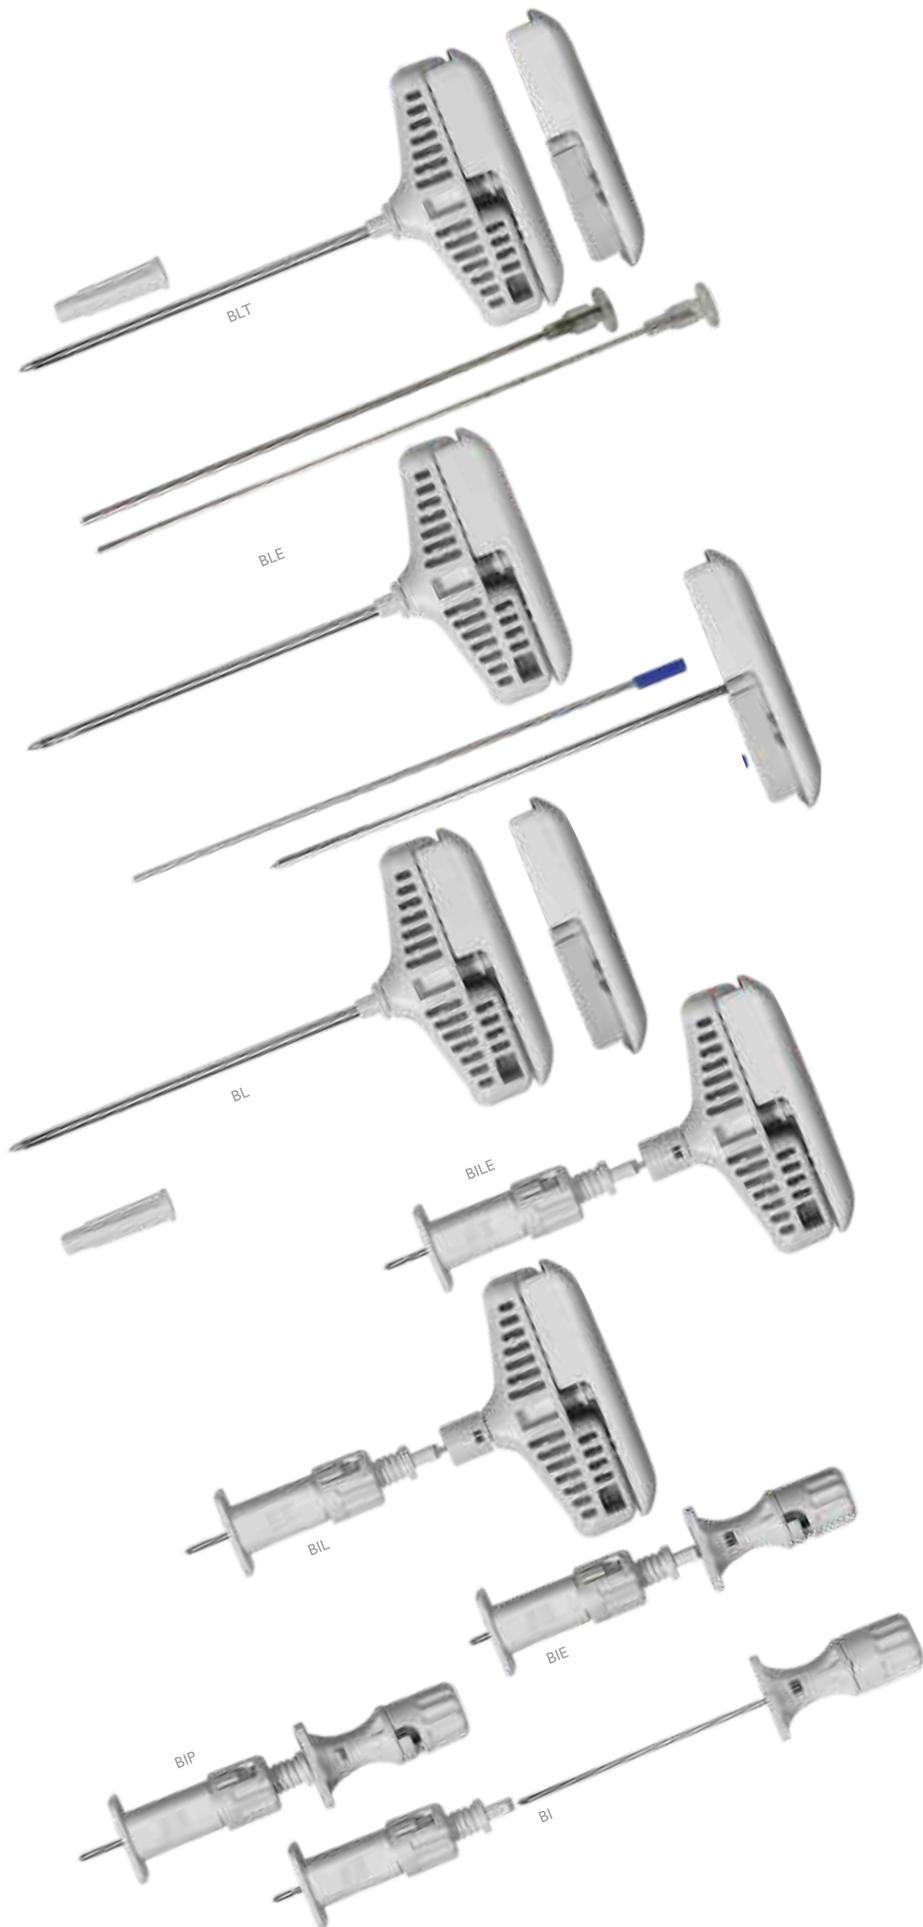

Different specialistic needles and sets

Loco-regional anaesthesia needles

Thermic sheets

Bone biopsy needles

BLT
Disposable needle
for bone-marrow biopsy
Lock system version
with sample trapping
device to avoid deflection
technique

BLE
Disposable
needle
for explant

BL
Disposable needle
for bone-marrow
biopsy

BILE
Disposable needle
for explant with
anatomic grip

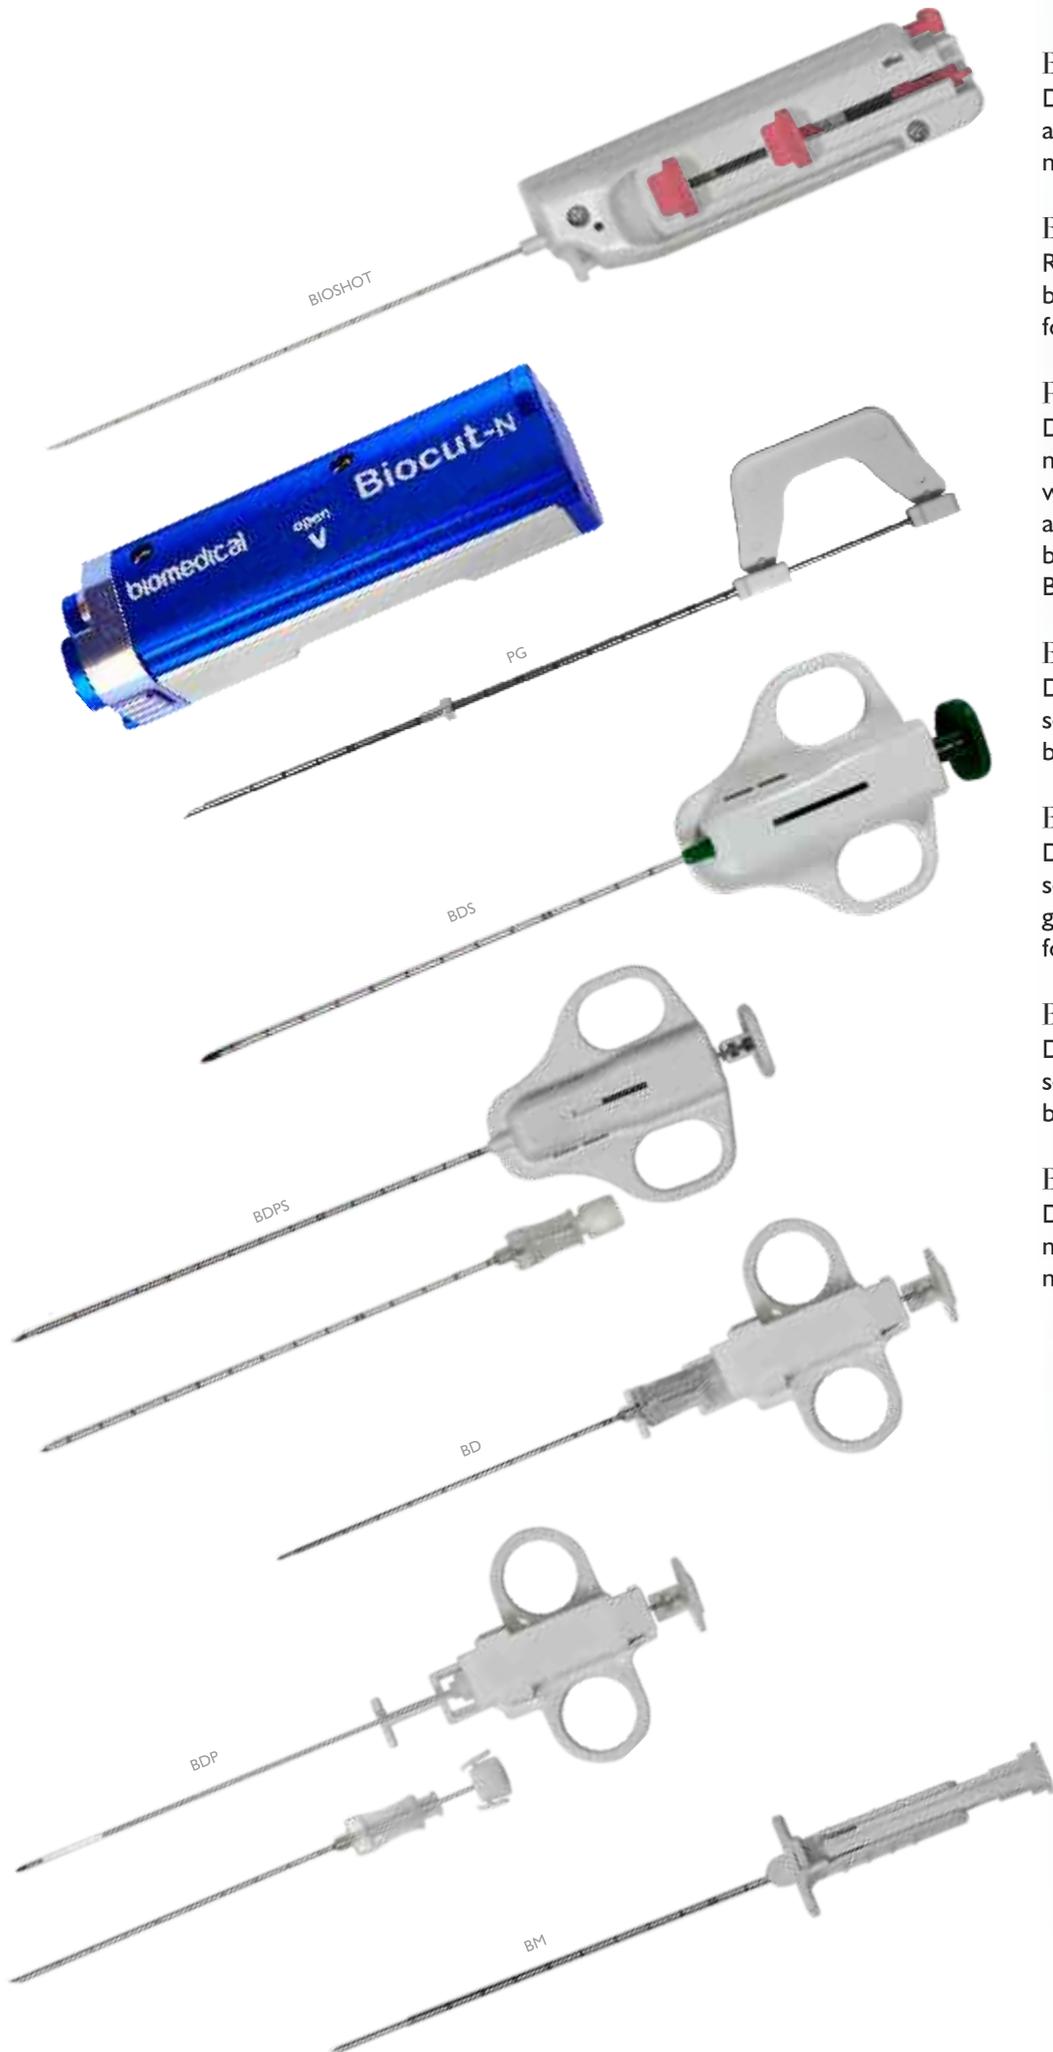

BIL
Disposable needle
for iliac-sternal
aspiration with
anatomic grip

BIE
Disposable
needle
for explant

BIP
Disposable needle
for iliac-sternal
aspiration
pre-assembled
version

BI
Disposable needle
for iliac-sternal
aspiration

Guillotine needles for biopsy on soft tissues

BIOSHOT
Disposable
automatic biopsy
needle

BIOCUT-N
Reusable automatic
biopsy device
for PG

PG
Disposable
needle to be used
with reusable
automatic
biopsy device
Biocut-m

BDS
Disposable
semiautomatic
biopsy needle

BDPS
Disposable
semiautomatic
guillotine needle
for coaxial biopsy

BD
Disposable
semiautomatic
biopsy needle

BM
Disposable
manual biopsy
needle

Cyto-aspiration needles

ME
Disposable
Chiba
needle

MEC
Disposable
Chiba
needle

MEW
Disposable
Wescott
needle

MEF
Disposable
Franseen
needle

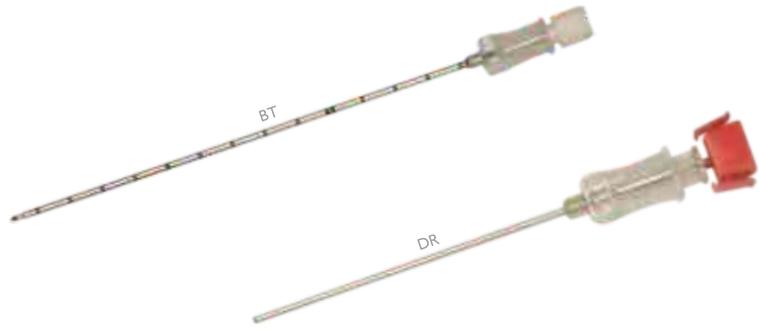

BCA
Disposable
automatic
needle Menghini
modified

BC
Disposable
needle
Menghini
modified

Different specialistic needles and sets

BT
Disposable
introducer needle

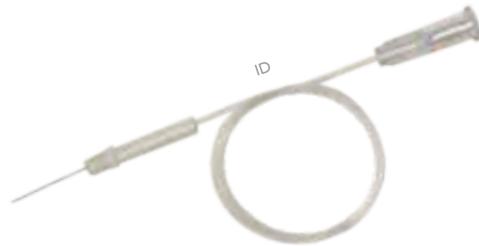

DR
Disposable
paracentesis needle

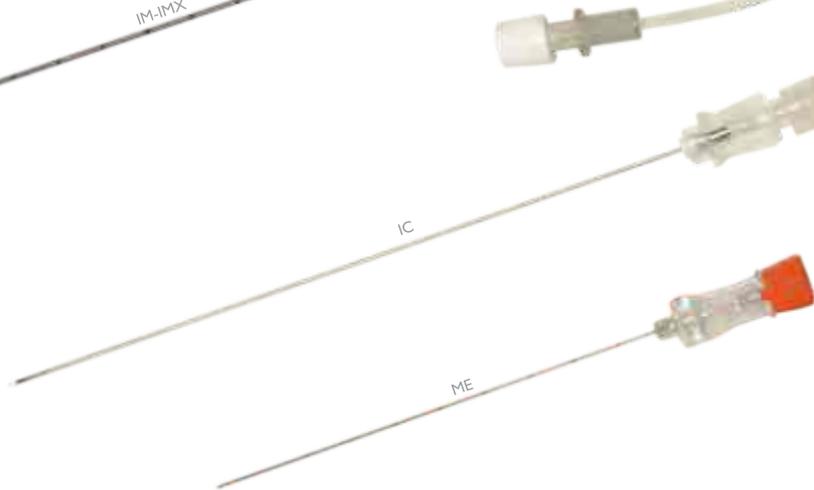

ID-IDK
Disposable set (ID)
or kit (IDK) for
galactography

IM-IMX
Disposable needle
for pre-operation
localization
of non-palpable
breast disease
with one hook (IM)
or double hook (IMX)

IC
Disposable
alcoholisation needle

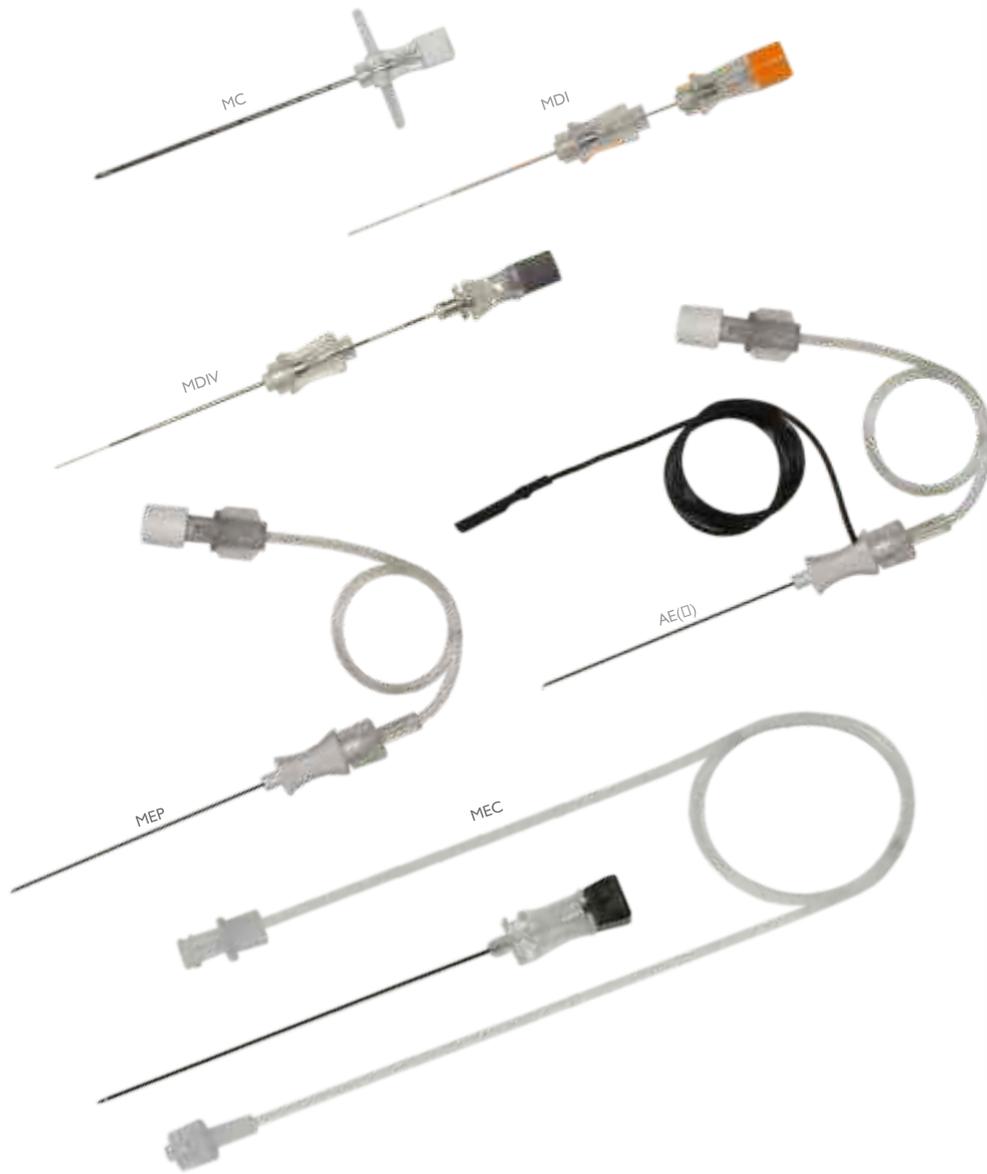

ME
Disposable
Chiba needle

IC

ME

Loco-regional anaesthesia needles and sets

MC
Disposable
Tuohy needle for
epidural anaesthesia

MDI
Disposable spinal needle
Pencil point
with introducer

MDIV
Disposable spinal
needle Pencil point
with introducer and
varied cross-section

AE(O)
Disposable ENS
(Electro Neuro
Stimulation)
needle for peripheral
nerve block

MEP
Disposable needle for
peripheral nerve block
under ultra sound

MEC
Echogenic Chiba
disposable needle

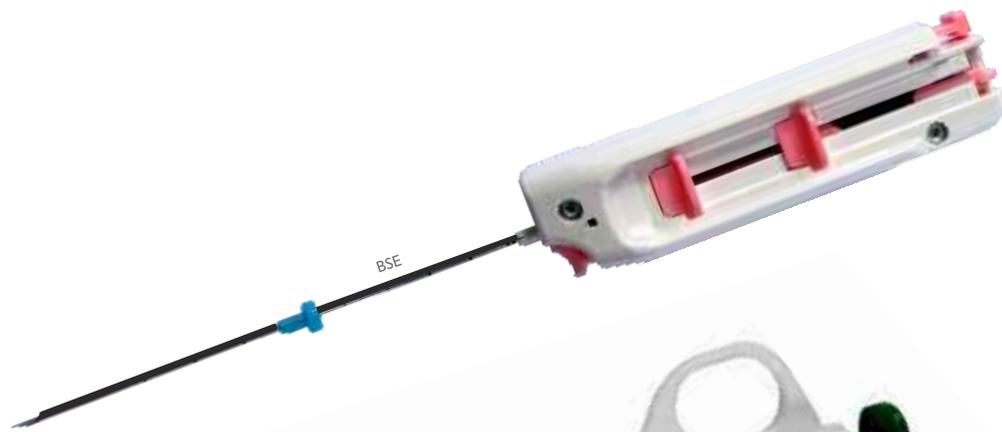

Thermic sheets

Biotherm
High protection
thermic sheet.

Biomedical production
also includes the
Biotherm range of
thermic materials for
high levels of
protection against
hypothermia.
Designed for the pre
and/or post operative
phase and the
emergency first aid and
transfer phase,
Biotherm is a range of
disposable, non-sterile
products which limits
heat loss with the aim
of keeping the patient's
temperature within
physiological limits.

Echo **black** disposable needles

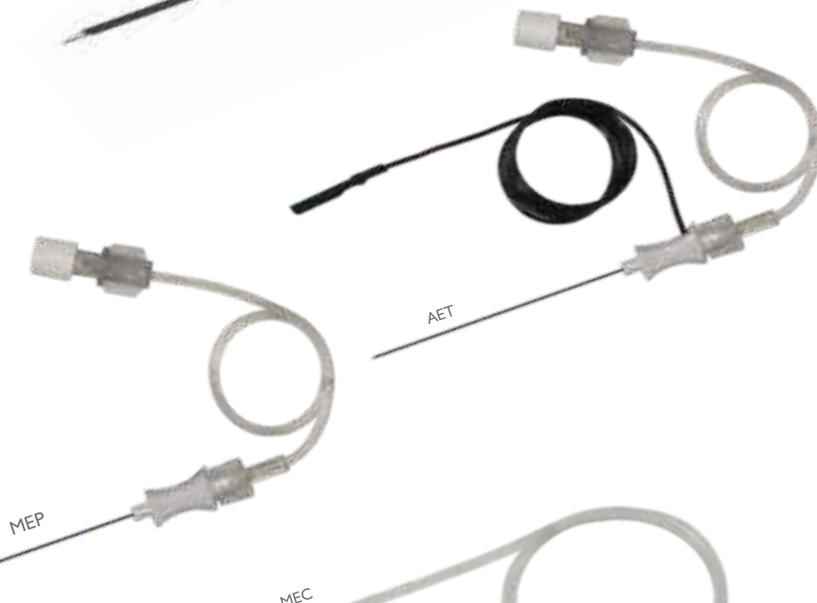

BSE
Disposable automatic guillotine needle for biopsy on soft tissues

BDSE
Disposable spring-loaded guillotine needle for biopsy on soft tissues

PGE
Disposable guillotine needle for biopsy on soft tissues to be used with reusable biopsy device (Biocut-M)

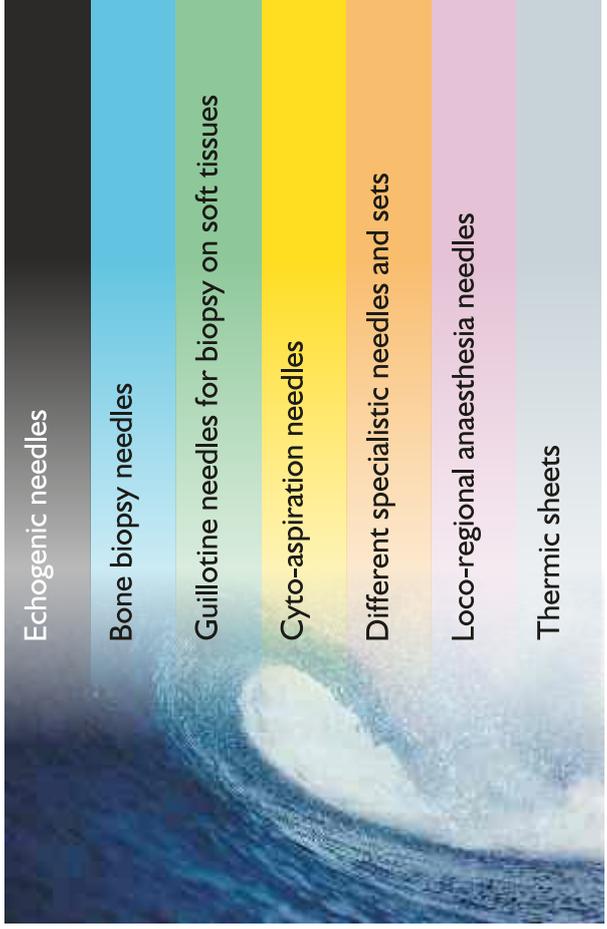

AET
Disposable needle for peripheral nerve block through E.N.S. (Electro Neuro Stimulation)

MEP
Disposable needle for peripheral nerve block under ultra sound

MEC
Echogenic Chiba disposable needle

Biomedical is able to provide needles of different sizes, different kind of tips and tip sharpening grade in order to satisfy specific needs of its customers.
