Technical parameters

KUUBE NANO

size: 1798x450x778 mm

used materials: sintered aluminum, glued tempered glass

number of seats: 4

solar panel: 112 W polycrystalline solar panels

battery: 12 V 72 Ah AGM

communication: Teltonika RUT240 4G LTE router, 802.11b/g/n

sensors: outside and inside temperature, humidity, uv index, air pollution, air pressure, GPS and motion sensor, battery and solar panel voltage, solar panel charging current, total consumption, voltage and current measurement of peripherals, number of USB and Qi charging, number of users connected to wifi, data uploaded and downloaded

weight: 180 kg

digital display: 1 2,4" TFT 1000 nit

lighting: 1000 mm RGB led

touch protection: extra-low voltage (doesn't need permission for touch protection)

operation: self developed electronic control unit

charging slots: 2 Qi charger, 2 USB charger
