Oley Medikal established as a manufacturer of radiation protective products in 2012 in Istanbul-Turkey. Oley Medikal has been succesful in a short time as a reputable, respected and well known company in the field of radiation protective products.

As an independent and innovator manufacturer company, our well educated team still working on development and expanding our portfolio. Our priority is both maximum protection of user health and customer satisfaction.

Therefore, we have added our portfolio disposable protective products and we continue our journey with Surgical Textile Equipments.

Oley prides itself on quality products, each Oley Product comes with satisfaction guarantee.

Oley manufactured products are warrantied under normal use and service, to against from defects in material and workmanship for a period of one year from the original date of shipment by Oley.

We continue expand our family with our dealers day by day.

FRONT SIDE PROTECTIVE APRON

SERIES 11

Front Side Apron is used for short-term X-Ray Exposure and protects front side of the body from the shoulder to the knee. Special shoulder pads reduce the weight for more comfortable usage. Upon request, apron can be produced either velcro closure or belt.

We provide Lead and Lead-free options of our durable, high quality materials.
