Recommendation Letter for Pumba Studio

To whom it might concern,

I am writing this letter to recommend Pumba Studio for their hard work and creativity in producing high-quality videos on playful learning for UNICEF Moldova. Having had the pleasure of collaborating with Pumba Studio, I can attest to their remarkable talent, rapidness, and commitment to stick to deadlines.

I would like to emphasize the patience and responsiveness of the video operators, editors and the entire team who were flexible in responding to any required change by us. Also, they showed great knowledge in working with children and the overall process was easier due to their involvement.

All though it was our first time working with them, they immeditaley understood the tasks, branding requirements and specifics of our projects. Their videos have been easily approved by the UNICEF teams and also the Ministry of Education and Research. Despite tight deadlines and complex project requirements, they have delivered on time without compromising on quality.

In conclusion, I have no hesitation in recommending Pumba Studio for any project requiring top-notch video production on various topics. Their commitment to quality, rapidness, talent, and creativity make them an invaluable partner for any endeavor. I am confident that they will continue to remain ambitious and hard-working in the realm of media production.

Sincerely,

Cătălina Russu,  
ECD consultant, UNICEF Moldova
