STARIA

Luggage mode

Cargo space

- VDA (ft) : 1,303

2nd -3rd row seats long sliding

- 2nd sliding range : forward 20 mm
- 3rd sliding range : forward 400 mm

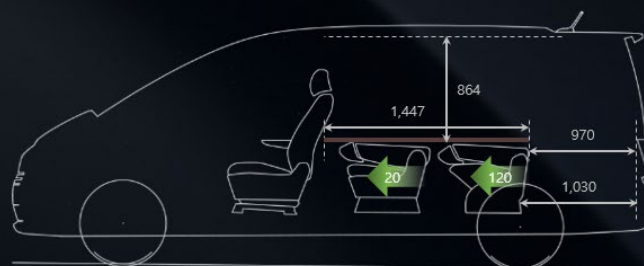

3rd row cushion tip-up seat

- Increased utilization of space behind the third row seats by adding a third row cushion tip-up function

Seatback folding mode

Seatback folding function offers improved convenience when loading cargo

2nd row 60:40 split foldable seat

Improved usability by applying a 60:40 folding seat considering various cargo loading situations

2nd row walk-in device

Increased cabin space utilization by adjusting the position of the second row seats

Cushion tip-up seat

Provides excellent space utilization by folding the seat cushion when necessary (3rd row in 9-seater)

Long sliding seats (2nd ~ 4th row seats)

Seats in rows 2, 3, and 4 can be moved forward/backward in a sliding manner, which is useful for getting on and off passengers or using space.

Full-flat of 2nd ~ 3th row seats (8/9-Seater)

Full-flat seats created by folding 2nd, 3rd, and 4th rows provide ample luggage space utilization for long/bulky cargo loading
