MPR (Multi Purpose Rail) models This system enhances the versatility for easy and quick exchange of different accessories, with no need for tools. Equipped with five connections for rings of various diameters to fit jars of different sizes and types (21, 31, 51), cannula holders and safety trap bottle. Main applications: EMERGENCY DEPT. / GYNAECOLOGY / OPERATING THEATRE / GENERAL SURGERY / NEUROSURGERY / DENTAL PRACTICE / OBSTETRICS Size: 460 x 850 x 420 mm Weight: 20 kg Made in Italy.
	Technical Specification	ons: Operating voltage: 230 V - 50/60 Hz

Maximum suction: - 0,90 bar (675 mmHg) Operating cycle: continuous Flow: 60 l/min Power: 230 VA Noise level: 51.7 dBA Norms: CEI 62-5 (IEC 601-1); 93/42 EEC

Standard accessories:121°C autoclavable jar with overflow valve system: 2x4 l
Rings to accommodate 5 l jars: NO
Safety Trap Bottle (220 ml): NO
Antibacterial & Hydrophobic Filter (single-patient): 1
Autoclavable silicone tubes ø 8x14 mm length 150 cm: 1
Conical Connector ø 10-11-12mm: 1
Air suction inlet: 1
Footswitch with intermittent or continuous operation: 1
Change-Over System from jar to jar by soft-touch keys: 1
Power Cord with Schuko plug: 1
Multilingual manual: GB, FR, IT, ES ,DE, GR, PL, RO
