

Hospital Care & OPM

## MEA Product Summary

## Discofix® C – The stopcock and manifold that resist stress cracking

- Allows convenient access for injections and aspirations by rotating adapter
- Lets you feel the proper setting by tactile response of every 45° turn
- Resists the hazardous effects of pharmaceuticals
- Maintains a leakproof connection even during long-term application
- Prevents leakage, contamination and air embolism

### Vasofix® Safety – Shielded IV Catheter with injection port

Protects you and your healthcare team against needlestick injuries and related infections.

- Complete portfolio for every vein condition, puncture site and patient age in two material types (FEP + PUR)
- Easy puncture at a wide range of angles because of optimized back cut bevel
- Minimum effort of catheter insertion
- Self-activating clip-technology => covers needle tip automatically after use
- Hygienic injection of medication via injection port without an extra needle or risk of needlestick injury
- PVC-free, latex-free

# Original Perfusor®-Tubing

Infusion Pumps Accessories

## Original Perfusor®-Tubings – For use with syringe pumps

- Made of PVC or PE
- Minimized priming volumes
- Luer-Lock fitting
- DEHP-free

*Original accessories – for system safety*
