

Within the meaning of Regulation (EU) 2017/745, Annex IV.

We, the company:

Tekno Medical Optik-Chirurgie GmbH
Sattlerstrasse 11
78532 Tuttlingen
Germany

SRN: DE-MF-000005822

declare under our sole responsibility that the following medical devices of risk class Ir, according to Regulation (EU) 2017/745, Annex VIII, rule 6:

see appendix 1: Product Listing (issued: 15.04.2025, 107 pages),

Intended uses:

see pages 2– 4: Intended uses

meet all applicable provisions, in particular the general safety and performance requirements of Regulation (EU) 2017/745 of the European Parliament and of the Council of April 5, 2017 on medical devices.

Conformity assessment procedure according to Regulation (EU) 2017/745, Annex IX, Chapter I and III

The QM-system is monitored by the notified body 0483:

mdc medical device certification GmbH,
Kriegerstr. 6,
70191 Stuttgart, Germany.

Valid until: 04.01.2029

Place, date: Tuttlingen, 15.04.2025

EMDN	Intended uses
L010101	Surgical instrument with a handle and a non-replaceable blade for cutting or preparing tissue.
L010103	Instrument for holding knife edges and razor blades
L0102	Surgical instrument for cutting vessels and tissue during operations on the nose, eyes, ears and joints.
L01040202	Surgical instrument for cutting suture material.
L010403	Surgical instrument for cutting tissue, organs, vessels and suture material in general surgery.
L010404	Surgical instrument for cutting tissue, organs and vessels.
L01040599	Surgical instrument for cutting tissue, organs, vessels and suture material in plastic surgery and ophthalmology.
L01040601	Surgical instrument for cutting tissue, organs, vessels and suture material in nasal surgery.
L01040602	Surgical instrument for cutting tissue, organs and vessels in ear surgery.
L01040604	Surgical instrument for cutting tissue, organs, vessels and suture material.
L010409	Surgical instrument for cutting tissue, organs, vessels, ribs and suture material in thoracic surgery.
L01041102	Surgical instrument for cutting tissue, organs, vessels and suture material in gynaecology.
L010413	Surgical instrument for cutting fine tissues, organs and vessels.
L010499	Surgical instrument for cutting tissue, organs, vessels and suture material during ENT procedures and in general surgery.
L010701	Surgical instrument for sawing bones in general surgery.
L010702	Surgical instrument for amputating body parts.
L0199	Surgical instrument for cutting out part of a tendon or ligament.
L0205	Surgical instrument used to grasp needles during wound suture to guide the needle and suture material through tissue.
L0206	Instrument for inserting sutures and sewing needles through the tissue.
L0207	Surgical instrument placed in or over an open wound to guide sutures.
L020801	Instrument for applying clamps, clips and rings.
L0299	Instrument for inserting sutures and needles through the tissue.
L031103	Instrument for introduction into natural or disease-related body cavities during treatment or diagnostic examinations in the throat area.
L0313	Surgical instrument for grasping, inserting and removing swabs and dressing material.
L031301	Surgical instrument for general collection of biopsy samples and other tissue during surgical procedures.
L031306	Surgical instrument for atraumatic clamping, grasping, holding or manipulation of anatomical structures.
L031308	Surgical instrument for grasping, manipulating, compressing or bandaging tissue and ligatures.
L031399	Surgical instrument for grasping and manipulating tissue, bones, tendons, ligaments, organs, foreign bodies and implants.
L03140104	Surgical instrument used as a hook, to pierce soft tissue structures, or to insert swabs.
L031402	Surgical instrument for separating the edges and exposing organs or tissue in open surgery.
L0399	Surgical instrument for cutting tissue or cartilage.

L04080202	Flexible instrument for grasping tissue and taking tissue samples for diagnostic purposes during endoscopic procedures.
L04080203	Surgical instrument for atraumatic grasping and fixation of the intestine and other organs or for removing foreign bodies.
L059003	Instrument for removing contraceptives and foreign bodies during gynaecological procedures.
L06060101	Surgical instrument for removing stones (e.g. kidney or gallstones) from the body,
L0699	Surgical instrument for incising a narrowing of the urethra.
L0708010101	Surgical instrument for clamping or holding off vessels or other anatomical structures.
L070802	Instrument for widening vessels and channels.
L070804	Surgical instrument for cutting out part of a vein or artery.
L080803	Clamp for clamping bronchi.
L080899	Surgical instrument for holding, grasping, manipulating and cutting tissue and bone structures.
L0901	Surgical instrument for removing tissue growths, scraping out bone cavities or removing gallstones
L090401	Surgical instrument used to cut through bone or to remove part of it.
L090901	Surgical instrument for cutting ribs.
L090999	Instrument for grasping, manipulating and cutting wires or for drilling or milling in bone surgery.
L091101	Rod-shaped instrument for pulling out bone nails.
L091201	Surgical instrument for lifting, removing, positioning or prying open bone structures.
L091301	Surgical instrument for grasping, holding or manipulating anatomical structures.
L091302	Surgical instrument for cutting, grasping and manipulating tissue and cartilage during surgical procedures on joints or vertebrae.
L091399	Surgical instrument for grasping, cutting or crushing bone and cartilage tissue.
L0916	Instrument for manipulating and removing bone, tissue and growths.
L1003	Surgical instrument for holding, grasping and manipulating different structures.
L1202	Surgical instrument used to cut, remove, or detach tissue during endoscopy.
L1204	Surgical instrument with spoon-shaped working ends for holding, manipulating and cutting tissue and bone structures.
L1206	Surgical instrument for spreading and holding anatomical structures.
L1213	Handle for holding laparoscopic or thoracoscopic instruments.
L1214	Metal sleeve for dilating surgically created body openings.
L1280	Insertion aid for other instruments to protect the surrounding tissue from injury.
L1299	Tube for guiding laparoscopic or thoracoscopic instruments.
L14010201	Surgical instrument for constricting the tonsils during ENT procedures.
L140202	Surgical instrument for cutting off polyps or removing encapsulated foreign bodies during ENT procedures.
L140203	Surgical instrument used to apply traction to skin, organs, tissue or bone structures during operations on the nose.
L140402	Surgical instrument for grasping, removing and manipulating the tonsils during ENT procedures
L1405	Surgical instrument for levering out, lifting and positioning anatomical structures during ENT surgery.
L140502	Surgical instrument used to scrape or scrape out tissue during ENT surgery.
L140599	Surgical instrument used to hold, grasp, manipulate, and cut tissue and bone structures during surgery on the ears or ear canals.

L149001	Surgical instrument for removing tissue during ENT surgery.
L149003	Instrument for holding the tongue during the administration of anaesthetic gases.
L149007	Surgical instrument for scratching or scraping out tissue and growths.
L149011	Surgical instrument for manipulating the tonsils during ENT procedures.
L149012	Instrument for removing tissue during surgical procedures on the oesophagus.
L149021	Surgical instrument for cutting and holding tissue, bone and cartilage during ENT surgery.
L150101	Surgical instrument for cutting or removing bone.
L1702	Surgical instrument for grasping and holding suture material.
L1703	Surgical instrument for removing tissue during ENT surgery or eye surgery.
L170499	Surgical instrument used to pierce or sever a body structure with the aim of draining a body fluid or gas to the outside or to remove foreign bodies.
L1707	Surgical instrument for removing tissue during an ophthalmic procedure.
L1914	Surgical instrument for examining/exploring the interior of a joint and for carrying out therapeutic measures within a joint.
L21	Instrument for applying or removing wound staples.
L2402	Surgical instrument for removing soft tissue and punching out skin.
L2403	Surgical instrument for cutting and removing skin.
