

PORTABLE REFRIGERATOR DE-1900

Applications:

Portable for vaccine, biological, blood, specimen or other heat-sensitive medication distribution and turnover on outdoors Suitable for individual, immunization stations, health centers, CDC, Bureau of Animal Husbandry, etc.

Features:

1. Support AC110~240V, DC12~24V, 7.4V battery
2. Keep 2-8°C under ambient 38°C
3. 1.7L big capacity, portable, only 2.24kg
4. LCD temp display, interchangeable between °C and °F
5. Antifreeze, thermoelectric cooling
6. Energy saving
7. Double Cooling, Fast Cooling Speed.

Battery Working Time:

1pcs 16000mah rechargeable battery, work about 8 hrs, charged fully 8-10 hrs.

Standard packing:

1pc cooler, 1 charger, 1 battery, 1 accessory bag

Specification:

No.	Item	Specifications
1	Dimension(L*W*H)	260*180*190mm
2	Volume(L*W*H)	180*102*94mm
3	Refrigeration temp	2-8°C(under ambient 38°C)
4	Input /output voltage(adapter)	AC100V-240V/DC9.0V
5	Output current (adapter)	4A
6	Input/output voltage (car power)	DC12V/ DC9.0V
7	Current (vehicle power)	4A
8	Voltage (lithium battery)	DC7.4V
9	Capacity (lithium battery)	16000mAH
10	Power rating	DC9.0V/ 18W,DC7.4V/13W
11	Weight	2.5kg(Without battery)

*Optional accessories and configurations: available upon individual requests
