

CARDIOVIT AT-102 G2

Easy, smart and state-of-the-art

SCHILLER
The Art of Diagnostics

CARDIOVIT AT-102 G2

The new generation ECG: CARDIOVIT AT-102 G2

- ✧ Best signal quality and diagnostic algorithms for adult and paediatric patients
- ✧ Fast bidirectional Wi-Fi communication with HIS/EMR
- ✧ Spirometry and basic exercise ECG optionally available

SpiroScout SP plus, for spirometry tests with the CARDIOVIT AT-102 G2

STATE-OF-THE-ART TECHNOLOGY AND CONNECTIVITY

The CARDIOVIT AT-102 G2 features an 8" colour display with touch function keys. Its sealed alphanumeric keyboard ensures easy cleaning, making it highly suitable for the daily clinical routine. Smart battery technology guarantees more than 8 hours of ECG recording.

Bidirectional communication allows for easy data access and fast transmission of all reports to EMR/HIS systems in PDF, DICOM or HL7 format. Standard Wi-Fi and LAN connectivity, combined with ECG review on the display and a large memory, supports paperless workflows and cost saving. Customizable printouts are available on the internal high-resolution A4 thermal printer.

HIGH EFFICIENCY IN ANY WORKFLOW

ECG acquisition has never been easier and faster: Enter or download patient data with PDQ or worklist, acquire ECG, save, print and transmit data within twenty seconds using only one navigation key.

EASY 1-2-3 STEPS

- 1: Enter or download patient data
- 2: Check signal quality and perform ECG
- 3: Review ECG before storing, exporting or printing

THE CARDIOVIT AT-102 G2 DIAGNOSTIC TOOLS

- ✧ Resting ECG with the SCHILLER ECG analysis program ETM as well as ETM Sport, the automatic interpretation for athletes.
- ✧ Resting rhythm recording up to 10 minutes.
- ✧ Optimal signal quality for paediatric ECGs.
- ✧ Basic exercise ECG (optional) with a large selection of protocols for treadmills and ergometers.
- ✧ SCHILLER's Culprit Coronary Artery Algorithm (CCAA, optional) locates the obstruction site in the coronary artery and thereby the size of the cardiac area at risk.

The CARDIOVIT AT-102 G2 is also available with a trolley.

ADD SPIROMETRY TO YOUR CARDIOVIT AT-102 G2

With the SpiroScout SP plus, the CARDIOVIT AT-102 G2 also becomes a spirometer. Thanks to GANSHORN's ultrasound technology, spirometry recordings are highly accurate and the sensor is maintenance- and calibration-free. The disposable ScoutTubes ensure maximum hygiene and patient safety. ScoutTubes are CO₂ neutral.

The spirometry option offers FVC, SVC and MVV with a large selection of reference standards, pre and post tests, as well as interpretation of the FVC results.

The device provides feedback on the procedure's quality during the test and after each trial.

Complete spirometry results can be printed on thermal paper as well as exported to EMR/HIS systems.

An incentive screen is included for trials with children.
