

BiTrac™ NIV

Non-invasive Ventilation masks

Critical Care ▪ Pulmodyne®

BiTrac™ NIV

The BiTrac NIV product family features a variety of interfaces that are designed to increase patient comfort and compliance in respiratory distress scenarios. The full face and nasal masks are highly adjustable, and their seal's design minimise pressure exerted on the bridge of the nose.

Our range of interchangeable elbows greatly reduces waste, as the mask's elbow can be easily removed and replaced when transitioning patients between standard ventilators and bilevel machines.

Interchangeable elbows

Code	Description	Box Qty.
313-9599	BiTrac Select™ interchangeable standard non-vented elbow	10
313-9593	BiTrac Select interchangeable vented elbow with anti-asphyxiation valve	10
