

GeneMapper *ID-X* Software

Cat. No. A39975

Thermo Fisher Scientific performed developmental validation experiments in accordance with the DNA Advisory Board (DAB) Quality Assurance Standards (September 1, 2011) and guidelines from the Scientific Working Group on DNA Analysis Methods (SWGDM, December 2016) to evaluate the performance of the Applied Biosystems™ GeneMapper™ *ID-X* Software.

Thermo Fisher Scientific has validated the GeneMapper™ *ID-X* Software v1.6 for use in human identification testing for databasing, casework, and paternity applications. Each laboratory using the GeneMapper *ID-X* Software should perform its own appropriate internal validation studies to establish interpretation criteria and demonstrate that the GeneMapper *ID-X* Software is appropriate and fit for its own human identification uses.
