Flexible putty blade, made of stainless steel.

Ergonomically profiled handle made of plastic ensures easy handling of the tool.

The putty knife has great flexibility, which allows for spreading very thin layers of mass.

It is characterized by a lightweight construction, is comfortable to hold in the hand and is easy to clean, the hole allows the product to be hung in the workshop.

The putty knife is used for applying and spreading putty masses, scraping old coatings, filling holes, joints, corners, etc.
