URS Uretero-Renoscope

12/08

The new RZ ultimate Autoclavable Operating Semi-Rigid Ureteroscope sets a new standard in ureteroscopes.

Completely autoclavable for easy maintenance, and with a one-piece seamless tapered shaft (9.5 Fr proximal diameter for 30 cm and 8.0 Fr for 15 cm of the distal shaft) is 45 cm in length, with a 7.0 Fr tip.

RZ Medizintechnik provides special advantage for this ureteroscope:

- Unique optical quality (50.000 pixel)
- Atraumatic design for easy introduction into the ureteral orifice
- Soft-step tapered shaft
- Large working channel for all accessories up to 5 Fr
- Oblique irrigation/suction channels for better dilation and continuous suction
- Oblique light connector for ergonomic handling

SPECIFICATIONS

Shaft Diameter / Length	
Distal Tip	7.0 Fr
Distal	8.0 Fr
Proximal	9.5 Fr
Total Working Length	45cm
Working Channel	5.8 Fr
Field of view	65°
Direction of View	5°

253-905-540
Ultimate Autoclavable Operating Semi-Rigid Ureteroscope
7.0 Fr, 45cm, 65° Field of View

5° Direction of View

The direction of view is 5° for safe instrument passage, the field of view is 65°. RZ optics allow a highly detailed, bright and crystal-clear image up to 50,000 pixels. Thanks to the atraumatic tip, it can be easily introduced to the ureteral orifice.

Tapered, Extra Slim Shaft

The innovative semi-rigid designed one-piece tapered shaft allows easy insertion and smooth passage of instruments through the operating channel. Its soft steps allow gentle dilation.

Ports for every need

All channels allow easy and comfortable insertion. Two ports are available - and each allow insertion of semi-rigid and flexible instruments. Our expertise in Urology guarantees perfect and comfortable function at any time.

Removable and usable

Each instrument port can be equipped with a removable ergonomic flow control stopcock. It can be easily connected and removed with just one hand and maintains a tight seal in every situation.

New designed Eyepiece

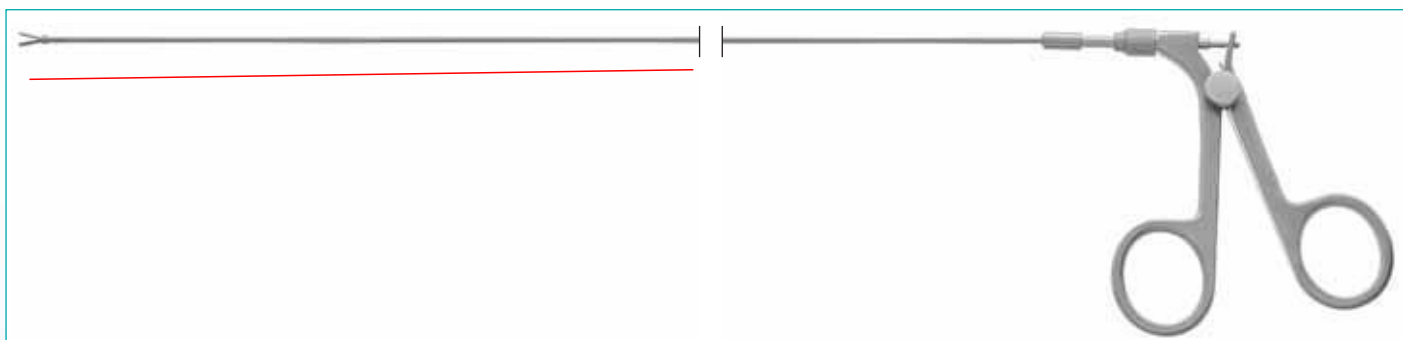

Newly designed for an easier and handy function, the new RZ eyepiece is preset to „0“ diopters and is perfectly combined to the optic and distal tip.

Ergonomic Stopcocks

All operating channels can be equipped with the removable ergonomic and comfortable stopcocks. These effective single-use disposable or re-usable additions allow the surgeon a precise in- and outflow.
