# ASAHI Gladius EX

## Middleweight Non-Tapered Long Polymer Jacket Guide Wire

- Tip Load 3.0gf
- Mini Pre-shape
- Polymer Jacket
- ACT ONE

### Mini Pre-Shape

1mm mini pre-shape manufactured to ensure tip shape within lesion which equals-easier tip shape control.

### Long Coating Length

ASAHI Gladius EX has longer hydrophilic coating compared to competitor A to maintain its lubricity through long arteries.

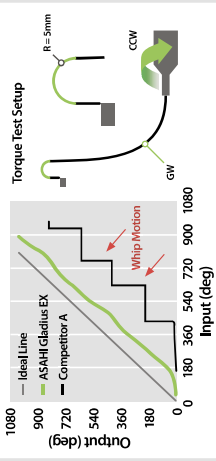

### High Lubricity

ASAHI Gladius EX has excellent lubricity that allows the GW to pass smoothly through a long stenotic lesion

### 1-To-1 Torque

ASAHI Gladius EX has superior torque response without whip motion enabling excellent maneuverability

### Tip Rigidity Comparison 1.5 - 30mm

ASAHI Gladius EX has a higher tip rigidity, enabling more push and torque control.

### Shaft Rigidity Comparison 30 - 300mm

ASAHI Gladius EX has a smooth balanced shaft design for better push transmission and trackability.
