Re: QuickProfile™ 2019-nCoV IgG/IgM Test Card

To whom it may concern:

We, LumiQuick Diagnostics, Inc., hereby state that QuickProfile™ 2019-nCoV IgG/IgM Test Card, Catalog#71108B can detect human antibodies against different variants of SARS-CoV-2 virus. QuickProfile™ 2019-nCoV IgG/IgM Test Card utilizes both recombinant Spike and Nucleocapsid Proteins for the serological test. The recombinants carry multiple epitopes for antibody reaction. The mutation of certain epitope will not affect detectability of human antibodies against SARS-CoV-2 in human blood samples. If you have any questions regarding to our product, please contact us at your convenience.
