Taizhou Huangyan Guan hong Plastic Steel Products Factory

# COMPANY PROFILE

Taizhou Huangyan GuanHong Plastic Steel Products Factory was founded in 1998, located in developed coastal city - Huangyan, Taizhou, Zhejiang Province, China. After more than 20 years of continuous efforts, our company has developed into a modern company engaged in the design, development, production, and sales of plastic medical consumables.

Our company covers an area of 15,000 square meters with a building area of 20,000 square meters. We have a purification workshop of 2,000 square meters and over 100 employees. The purification injection molding workshop has a total of 30 large, medium, and small injection molding machines ranging from 200 grams to 10000 grams, as well as 3 blow molding machines. Our company can produce various medical plastic products of different models and specifications, such as sharps container, specimen container, medical tray, urine cup, urine bottle, bed pan, etc. It is worth mentioning that we have been specializing in the production of sharp containers for over 20 years, with rich production experience and a complete range of models, and have a good reputation in the industry. Furthermore, we also have independent mold design and production capabilities. We can provide OEM services. We can help customers design or improve products and provide competitive quotes.

Our company has passed multiple qualification assessment, such as ISO13485, ISO9001, CE, FDA, etc. We strictly adhere to relevant system requirements and form a complete and scientific production product control system.

We persistently stick to the principle of "Quality First, Reputation Supreme". Our products are exported to countries and regions such as Europe, America, Africa, and Southeast Asia, receiving high praise from customers. We sincerely look forward to your presence and establishing a long-term stable relationship with you. Let's create a better future together!!
