

Technical Service and Support

St. Jude Medical Assurance™ Service and Technology Program

Description

The St. Jude Medical Assurance Service and Technology program for the the St. Jude Medical cardiac ablation generator and Cool Point™ irrigation pump provides customers with the option of extending their system warranty beyond the standard 12-month post-installation coverage. The Assurance Service and Technology Plan can be purchased at initial order, installation or at any time during ownership of the cardiac ablation generator or Cool Point irrigation pump.

Product Highlights

- The Assurance Plan covers all service and repair related events and entitles customers to receive any system software upgrade released while the Assurance Plan is active at no additional charge
- Loaner equipment may be provided if the repair cannot be resolved by St. Jude Medical Field Service Engineers on site.
- Coverage can be extended on an annual basis
