

**Declaration letter**

We, **Synergie Ingénierie Médicale S.A.R.L.**, based in **Zone Artisanale de l'Angle - 19370 Chamberet - FRANCE**, confirm the technical specification of our product:

**1) Synicem3**

- Orthopedic cement without antibiotic
- Presentation: 40 g – 20 ml
- Sterile packaging
- With 2 components - a vial of liquid and a bag of polymer powder
- Radiopaque
- Medium viscosity

**2) Synicem 3G**

- Orthopedic cement with antibiotic
- With 40 g of polymer in powder form and monomer in liquid form
- Contain barium sulphate in cement powder as a radiopaque agent
- Medium viscosity, product is indicated for arthroplasties at the level of the hip, knees and other joints
- Contains Gentamicine

**3) Synimiv V**

- Orthopedic cement with antibiotic associated with vacuum cement mixing system
- With 40 g of polymer in powder form and monomer in liquid form
- Contain barium sulphate in cement powder as a radiopaque agent.
- Medium viscosity, product is indicated for arthroplasties at the level of the hip, knees and other joints.
- Contains Gentamicine

***Vacuum mixing system of acrylic cement:***

- Cartridge filled with cement in which it is mixed
- Vacuum pump;
- Long tip for the insertion of the cement in the femoral canal
- Cement delivery gun on prosthetic surfaces and bone channels

Place:

Date:

28 - June - 2021
