

Production Capability

<i>Manufacturing lines and characteristics</i>	<i>Number</i>	<i>Brief description</i>	<i>Capacity</i>	<i>Source¹</i>
Three-phase oil transformers with a power range of up to 450 MVA and nominal voltage up to 420 kV	3	Iron core assembly Winding coil Active part assembly Leads assembly Final assembly Factory Test	Average annual capacity 2 400 – 2 800 MVA	O

Manufacturing line: Three-phase oil transformers with a power range of up to 450 MVA and nominal voltage up to 420 kV		
Manufacturing line information	Name of the plant/workshop: Iron core assembly / Winding coil / Active part assembly / Leads assembly / Final assembly / Factory Test	
	Capacity: Average annual capacity 2 400 – 2 800 MVA	Year of installation: 2003
Current status	Current commitments: normal service conditions are valid for 30 years	
Type of access ²	0
