

## WARRANTY CONDITIONS

### Helmet for firefighters CALISIA VULCAN type CV 102 NEO

The producer grants a 24-month warranty for the helmet, starting with the date of purchase.

- The helmet retains good utility conditions until normal wear and tear.
- The helmet provides safety as long as it is properly assembled and worn.
- The helmet meets the requirements of the EN 443:2008; EN 16471:2014; EN 6473:2014 standard if the chin belts are fastened and their length is properly adjusted according to this manual.
- The helmet absorbs energy of a stroke by its partial destruction or damage of some of its parts. As a result of a strong stroke, the helmet should be removed from use and replaced with a new one.
- A helmet damaged by aggressive agents should be removed from use and replaced with a new one.

The warranty is granted provided that the user presents the original receipt for the helmet, obeys the operating rules included in this Operating Manual and uses original and unmodified spare parts.

The warranty covers the defects of material and damage done during the production of the helmet. The warranty does not cover mechanical damage resulting from using the helmet.
