

Oral care

Ventilator-associated pneumonia (VAP) is associated with prolonged intensive care (ICU) stay, increased mortality and costs. Our oral care devices can help in the prevention of VAP.

Benefits of proper oral care

- Maintenance of patient comfort and dignity
- Improved tooth, gum and oral mucosal health
- Reduced nurse workload

Swab

REF	Packaging	pcs/box
SS01 NS	non sterile	1/100/2000

Swab with sodium bicarbonate

REF	Packaging	pcs/box
SS02 NS	non sterile	1/100/2000
