

Ahn Plastic Cryoboxes 9x9 / 10x10

With our ahn Plastic Cryoboxes you can organize your cryo tubes in freezers or liquid nitrogen. They are made from premium quality polypropylene and easy to autoclave.

Sizes and Footprints

Our Plastic Cryoboxes are available in two sizes 9x9 and 10x10 grid. Both have the size 130x130 mm and can be stacked easily. They even fit the regular freezers. The streamlined design complements our ahn myTube CrT Cryo Tubes and retains compatibility with other brands.

9x9 Cryoboxes

The 9x9 Cryoboxes accommodate up to 81 samples. And are suited for budget-constrained laboratory settings.

10x10 Cryoboxes

These Boxes provide 23% more storage without increasing the box footprint. They are especially suited to space-limited settings or laboratories requiring cutting-edge features for optimizing your workflow.

| Description | Dimensions | Material | Colour | Sales Unit | Cat.No. |
|--|--------------|----------|--------|--------------|------------|
| Cryobox, 9x9 grid for 1.0mL – 2.0mL cryo tubes | 130x130x50mm | Plastic | clear | case/26 pcs. | 3-632-45-0 |
