Cateter Wit Mandrin

code PKHF11P200

Cateter cu mandren (set) produs de Joline GmbH & Co. KG (Germania), destinat utilizării în terapii de hemodializă și hemodiafiltrare cu aparatul OMNI® de la BBraun.

Acest cateter este conceput pentru a oferi acces vascular central cu **flux sporit**, fiind parte a circuitului extracorporeal folosit în terapiile CRRT / HD / HDF pe aparatul OMNI, adesea utilizat în secțiile de terapie intensivă.

Specificații cheie

- **Tip:** Cateter cu mandren (set)
 - **Model / cod produs:** PKHF11P200
 - **Diametru:** 11 Fr (French, unitate standard pentru catetere de dializă)
 - **Lungime:** 200 mm (20 cm)
 - **Lumen:** Dublu (două canale — arterial și venos)
 - **Conexiuni:** Porturi tip **Luer-Lock** pentru injectare/infuzie
 - **Material:** Poliuretan termosensitiv (Tecoflex®), radioopac (vizibil la raze X)
 - **Ghid (mandren):** Cablu de ghid de tip nitinol, lung ~700 mm, rezistent la îndoire
 - **Dilatator:** Inclus pentru facilitarea insertiei
 - **Ac de puncție:** 18 G (standard pentru canulare centrală)
 - **Aplicare:** acces central pentru proceduri extracorporale precum hemodializă / hemodiafiltrare
 - **Compatibil cu sistemul OMNI BBraun**
- !!! Toate componentele sunt dimensionate să funcționeze împreună în siguranță.

Pentru ce se folosește?

Permite conectarea vaselor mari (de obicei vena jugulară, subclavie sau femurală) la sistemul OMNI pentru:

- Hemodializă continuă sau intermitentă
- Hemodiafiltrare
- Alte terapii extracorporale când este nevoie de un **debit mare de sânge**

Fiind dublu-lumen, sângele iese și revine prin același cateter fără pierderi mari de flux.

Setul include:

- ✓ Cateterul cu mandren preîncărcat
- ✓ Ghid (fir) rezistent la îndoire
- ✓ Dilatator
- ✓ Ac de puncție
- ✓ Capace Luer-Lock și eventual alte componente de conectare
- ✓ Manual și ambalaj steril

High Flow Double Lumen ST

11 Fr. w. Stylet Straight Ext.

Contents per Unit:

- 1 High Flow double lumen catheter PUR 11 Fr x 200 mm
- 1 Dilator 12 Fr x 150 mm
- 1 Nitinol guidewire with J-tip 0.89 mm x 700 mm
- 1 Introducer needle 18 G (1.3 mm) x 70 mm
- 2 Luer-Lock injection caps
