

Letter of Recommendation

I am writing this letter to recommend the IT Solutions provided by „Softline International” L.T.D. During the past five years, „Microinvest” L.L.C. has been working with „Softline International” L.T.D. on different kinds of projects. The company offers high quality IT solutions and services. We can say that we have always been satisfied by their work.

The latest project „Upgrade Cybersecurity Network” realized by Softline International for Microinvest L.L.C was a complex one that's rely on a suite of technologies that are aimed to assure secure and fast access to Internet, Remote Connectivity and Web Application Server protection and consisted in:

- Analyzing and developing the solution concept;
- Delivering Hardware and Software (FortiGate Next Generation Firewall; FortiAP-WIFI Access Point; FortiAnalyzer – management, logging and reporting tools; FortiSwitch; HP Switch);
- Installing and configuring Hardware and Software;

That project pointed out the concern for quality, terms and attention to detail that the company has. The response rate was double, because it has been the knowledge of the company that resulted in impressive results.

I do recommend the services of „Softline International” L.T.D. and I am looking forward to working with the company again for future IT projects.

Best regards,
Strogoteanu Dumitru
CFO
